

PATHOLOGY SEMINARS, SPRING TERM 2012
FRIDAYS, 1:45-2:45 P.M.
670 ALBANY STREET – LOBBY LEVEL – ROOM #107/108
REFRESHMENTS AT 1:30 PM

*** THERE IS ONE LOCATION EXCEPTION**

JANUARY

TALK TITLES

13- The 6th Annual Nancy L. R. Bucher, MD Seminar
Dr. Anna Mae Diehl, MD
Professor of Medicine
Chief, Division of Gastroenterology
Duke University Medical Center

“Fetal Morphogens and
Regenerative Responses to Adult
Liver Injury”

27- Edward Hartsough, PhD Candidate
Department of Pathology and Laboratory Medicine
Boston University School of Medicine
Rahimi Lab

“Receptor Tyrosine Kinase Activation:
Beyond Autophosphorylation”

FEBRUARY

3- Pamela McLean, PhD
Assistant Professor
Mass General Institute of Neurodegenerative Diseases (MIND)
MGH/Harvard Medical School

“Alpha-synuclein as a Target
for Parkinson’s Disease Therapeutics”

10- Shannon Turley, PhD
Associate Professor of Microbiology and Immunology
Harvard Medical School

"Novel Cross-talk Between
Lymph Node Stroma and Immune Cells"

17 - Carl J. Hauser, MD
Trauma and Critical Care Specialist
Beth Israel Deaconess Medical Center
Harvard Medical School

“Danger” Molecules as Inflammatory Agonists
and Biomarkers in Sepsis and SIRS

24- Andrius Kazlauskas, PhD
Associate Professor
Department of Ophthalmology
Harvard Medical School

"Recent insights into how VEGF
activates PI3K/Akt"

MARCH

2- Alexander Poltorak, PhD
Assistant Professor of Pathology
Tufts University

"Activation of Innate Immune Response:
Learning from the Wild-Derived Mice"

Boston University School of Medicine is accredited by the Accreditation Council for Continuing Medical education to provide continuing medical education for physicians. Boston University School of Medicine designates this educational activity on an hour-for-hour basis in category 1 credit towards the AMA Physician's Recognition Award. Each physician should claim only those credits that he/she actually spent in the activity.

9- Jean Zhao, PhD

Assistant Professor
Department of Biological Chemistry and Molecular Pharmacology
Beth Israel Deaconess Medical Center

“Targeting PI3K in Cancer: Mechanistic and Therapeutic Insights from Genetic Mouse Models”

16- *SPRING BREAK*

NO SEMINAR

23- Marian DiFiglia, MD, PhD

Professor of Neurology
Harvard Medical School

“Huntington's Disease: Novel Mechanisms and Therapies”

*30 – Patricia D’Amore, PhD

Professor, Department of Ophthalmology
Harvard Medical School
Research Associate, Vascular Biology Program, Children’s Hospital, Boston
Co-Director of Research, Senior Scientist, Schepens Eye Research Institute

“Role and Regulation of VEGF in the Adult”

(Note: seminar to be held in room L206/209)

APRIL

6- Robert Gerszten, MD

Director of Clinical and Transitional Research
MGH Heart Center
Harvard Medical School

“Metabolite Profiles and the Risk of Diabetes and Its Complications”

13- Heather Cohen, PhD Candidate

Department of Pathology and Laboratory Medicine
Boston University School of Medicine
Trojanowska Lab

“The Role of Transcription Factor Fli1 in the Bleomycin Induced Pulmonary Fibrosis Mouse Model”

20- Rituparna Moitra, PhD Candidate

Department of Pathology and Laboratory Medicine
Boston University School of Medicine
Remick Lab

"Critical Role of Pre-existing Plasma Factors in Mediating Survival in Sepsis"

27- Marion Dorsch, PhD

Director of Cancer Biology
Sanofi-Aventis
Cambridge, MA

TBD

MAY

4- James Musser, MD, PhD

Director, Center for Molecular and Translational Human Infectious Disease Research
The Methodist Hospital Research Institute

“Bacterial Genome Sequencing in the Clinical Arena”
