As a student at BUSM, you are required by Boston University to comply with the COVID vaccine requirements outlined for all Boston University students. The university requires all students to be vaccinated to participate in the medical school curriculum.

If you have only received 1 dose of a 2 dose vaccine series (Pfizer or Moderna), you will receive a temporary compliance status and will be able to attend classes. To do so, you must upload proof of your vaccine to Patient Connect. You are still required to get your second dose, if the series requires. You will be able to participate in the curriculum with 1 dose of a 2 dose series or 1 dose of a single dose series.

Directions to upload COVID-19 vaccine to Patient Connect:

1. ALL students must upload documentation of COVID vaccination, regardless of where your vaccine was administered
2. Login to Patient Connect
3. In the menu on the left, select “Messages”
4. Select “COVID-19 (Coronavirus)”, then “COVID-19 Vaccine Documentation Upload”
5. Attach your documentation
6. For each vaccine administered, enter the date of administration
7. Complete all required fields and select “Send”

If you are choosing not to receive the vaccine for medical or religious reasons, you can request an exemption via Patient Connect. In the event you decide to get the vaccine at a later date, you can upload based on the directions above.

1. Login to Patient Connect
2. In the menu on the left, select “Messages”
3. Select “COVID-19 (Coronavirus)”, then “COVID-19 Vaccine Declination Upload”
4. Attach your documentation
5. Complete all required fields and select “Send”

Failure to do either of the above steps may result in:

- disabling your Terrier ID Card and campus WIFI access;
- being banned from all University properties except for purposes of coming on campus to complete testing;
- prohibited from participating in any classroom or academic activity, either in person or remote, including clinical rotations, the ability to access your courses through Blackboard or other platforms, or complete quizzes, examinations, and other course assignments;
- University disciplinary action, which may include suspension or expulsion.
