

Third Year Required Patients & Procedures– Full List

Required Patient Encounters for Logging				
Clerkship/Clinical discipline	Patient type/ Clinical condition	Procedures/Skills	Clinical setting	Level of student responsibility*
Family Medicine	Fatigue		O	All
Family Medicine	High blood pressure		O	All
Family Medicine	The ambulatory patient with chest pain		O	All
Family Medicine	Cough		O	All
Family Medicine	Back Pain		O	All
Family Medicine	Sexual dysfunction		O	All
Family Medicine	Skin lesions/rashes		O	All
Family Medicine	The well adult		O	All
Family Medicine	The patient with obesity		O	All
Family Medicine	The patient with diabetes		O	All
Family Medicine	The patient with chronic pain		O	All
Family Medicine	The patient with a substance use disorder		O	All
Family Medicine	Depressed/Sad		O	All
Family Medicine		Vaccine Administration	O	P
Internal Medicine	Fever		I	All
Internal Medicine	Low blood pressure		I	All
Internal Medicine	The hospitalized patient with chest pain		I	All
Internal Medicine	Shortness of breath		I	All
Internal Medicine	Lab abnormalities (glucose, acid-base, creatinine, sodium, potassium, calcium, hemoglobin)		I	All
Internal Medicine	Palpitations		I	All
Internal Medicine	Extremity pain/swelling		I	All
Internal Medicine	The hospitalized patient with chronic kidney disease		I	All
Internal Medicine	The hospitalized patient with congestive heart failure		I	All
Internal Medicine	The hospitalized patient with COPD/emphysema		I	All
Neurology	Weakness (focal/global)		I,O	All

Levels of Responsibility

Presenting Conditions

All: Students are expected to take a patient history, conduct a physical exam, and provide both an assessment and treatment plan inclusive of anticipatory guidance and counseling where appropriate

Alternative Experience- Students complete the requirement by participating in a simulation, standardized patient exercise, case-based session or online module.

Procedures

Sim=Simulation or task trainer: Student performs a procedure or skill in simulation or by using a task trainer

P=Procedure: Students are expected to perform the procedure/skill on a patient

O= Observation: Students are expected to observe a procedure done on a patient

Required Patient Encounters for Logging				
Clerkship/Clinical discipline	Patient type/ Clinical condition	Procedures/Skills	Clinical setting	Level of student responsibility*
Neurology	Headache		I,O	All
Neurology	Dizziness/lightheadedness		I,O	All
Neurology	Altered mental status		I,O	All
Neurology	Loss of consciousness		I,O	All
Neurology	Memory difficulties		I,O	All
Neurology	Seizures		I,O	All
Neurology	Gait/movement abnormalities – abnormal gait		I,O	All
Neurology	Gait/movement abnormalities - tremor		I,O	All
Neurology	Numbness and tingling		I,O	All
Neurology	Back pain		I,O	All
Neurology		LP		Sim
Neurology		EMG discussion or observation		O, Alternative Experience
Neurology		EEG discussion or observation		O, Alternative Experience
Obstetrics & Gynecology	Abdominal/Pelvic Pain		I,O	All
Obstetrics & Gynecology	Amenorrhea		O	All
Obstetrics & Gynecology	Hot flashes		O	All
Obstetrics & Gynecology	Abnormal uterine bleeding		I,O	All
Obstetrics & Gynecology	Sexual dysfunction		O	All
Obstetrics & Gynecology	Urinary changes		I,O	All
Obstetrics & Gynecology	Vaginal discharge		I, O	All
Obstetrics & Gynecology	Pre-operative patient		I, O	All
Obstetrics & Gynecology	Post-operative patient		I, O	All
Obstetrics & Gynecology	Contraceptive management		I, O	All
Obstetrics & Gynecology	The patient who is trying to get pregnant		O	All
Obstetrics & Gynecology	The patient who is pregnant		I,O	All
Obstetrics & Gynecology	The patient in labor		I	All
Obstetrics & Gynecology	The postpartum patient		I	All
Obstetrics & Gynecology	High blood pressure in a pregnant patient		I,O	All

Levels of Responsibility

Presenting Conditions

All: Students are expected to take a patient history, conduct a physical exam, and provide both an assessment and treatment plan inclusive of anticipatory guidance and counseling where appropriate

Alternative Experience- Students complete the requirement by participating in a simulation, standardized patient exercise, case-based session or online module.

Procedures

Sim=Simulation or task trainer: Student performs a procedure or skill in simulation or by using a task trainer

P=Procedure: Students are expected to perform the procedure/skill on a patient

O= Observation: Students are expected to observe a procedure done on a patient

Required Patient Encounters for Logging				
Clerkship/Clinical discipline	Patient type/ Clinical condition	Procedures/Skills	Clinical setting	Level of student responsibility*
Obstetrics & Gynecology		Female urinary catheterization	I,O	P
Obstetrics & Gynecology		NSVD	I	P
Obstetrics & Gynecology		D&C	I	O
Obstetrics & Gynecology		Suturing	I,O	P
Obstetrics & Gynecology		Pap smear	O	P
Obstetrics & Gynecology		Scrubbing and sterile gown/gloving	I	P
Pediatrics	Fever in a pediatric patient		I,O	All
Pediatrics	Weight changes in a pediatric patient		I, O	All
Pediatrics	Upper respiratory symptoms		I, O	All
Pediatrics	Eye pain/redness		I, O	All
Pediatrics	Shortness of breath in a pediatric patient		I, O	All
Pediatrics	Vomiting in a pediatric patient		I, O	All
Pediatrics	Diarrhea in a pediatric patient		I, O	All
Pediatrics	Abdominal pain in a child		I, O	All
Pediatrics	Jaundice in a pediatric patient		I, O	All
Pediatrics	Extremity pain/swelling		I, O	All
Pediatrics	Well child		O	All
Pediatrics	Pt with dev delay/disability		I,O	All
Psychiatry	Depressed/Sad		I	All
Psychiatry	Anxious		I,O	All
Psychiatry	Alteration of thought/behavior -Suicidal ideation		I,O	All
Psychiatry	Alteration of thought/behavior –Mania		I,O	All
Psychiatry	Alteration of thought/behavior- Aggression		I,O	All
Psychiatry	Alteration of thought/behavior - Psychosis		I,O	All
Psychiatry	Altered mental status		I,O	All
Psychiatry	The patient with a substance use disorder		I,O	All

Levels of Responsibility

Presenting Conditions

All: Students are expected to take a patient history, conduct a physical exam, and provide both an assessment and treatment plan inclusive of anticipatory guidance and counseling where appropriate

Alternative Experience- Students complete the requirement by participating in a simulation, standardized patient exercise, case-based session or online module.

Procedures

Sim=Simulation or task trainer: Student performs a procedure or skill in simulation or by using a task trainer

P=Procedure: Students are expected to perform the procedure/skill on a patient

O= Observation: Students are expected to observe a procedure done on a patient

Required Patient Encounters for Logging				
Clerkship/Clinical discipline	Patient type/ Clinical condition	Procedures/Skills	Clinical setting	Level of student responsibility*
Psychiatry	The patient with a history of trauma or violence		I,O	All
Surgery	Breast lump		I, O	All
Surgery	The hospitalized patient with abdominal/pelvic pain		I	All
Surgery	Vomiting		I, O	All
Surgery	Blood in stool		I, O	All
Surgery	Groin pain/swelling		O	All
Surgery	The pre-operative patient		O	All
Surgery	The post-operative patient		I,O	All
Surgery		Suturing		P
Surgery		Scrubbing and sterile gown/gloving		P
Surgery		IV insertion		Sim
Surgery		Epidural/Spinal placement		O
Surgery		Bag valve mask ventilation		Sim
Surgery		Intubation		Sim
Geriatrics	Weight changes		I,O	All
Geriatrics	Depressed/sad		I,O	All
Geriatrics	Memory difficulties		I,O	All
Geriatrics	Urinary changes		I,O	All
Geriatrics	Gait abnormalities		I,O	All
Geriatrics	Hearing changes		I,O	All
Geriatrics	Vision Changes		I,O	All
Geriatrics	Difficulty Swallowing		I,O	All
Geriatrics	The patient with disability		I,O	All
Geriatrics	The ambulatory patient with congestive heart failure		O	All
Geriatrics	The ambulatory patient with chronic kidney disease		O	All
Geriatrics	The ambulatory patient with COPD/Emphysema		O	All
Geriatrics	The dying patient		I,O	All

Levels of Responsibility

Presenting Conditions

All: Students are expected to take a patient history, conduct a physical exam, and provide both an assessment and treatment plan inclusive of anticipatory guidance and counseling where appropriate

Alternative Experience- Students complete the requirement by participating in a simulation, standardized patient exercise, case-based session or online module.
