

Special invitation for CityLab Scholars, Parents, and
Family

The Cross-disciplinary Training program in Nanotechnology for Cancer (XTNC)

Invites you to a hands-on informational session about current research in
nanotechnology for cancer on

December 9, 2011

5pm – 8 pm

CityLab

801 Albany St.

Boston, MA 02118

What is big deal about nanotechnology?

What potential does nanotechnology hold for cancer research and treatment?

- Perform two hands-on laboratory investigations and learn how chefs and researchers use the principles of self-assembly to create gourmet foods and nanoparticles.
- Hear from Boston University scientists about the work they are doing in cancer and nanotechnology.

Space is limited: RSVP citylab@bu.edu or call 617-638 -6495
