

CityLab Scholars Program

Extend your SummerLab experience!

The Scholars Program is designed for students who have completed SummerLab and want to learn more about biotechnology.

Scholars meet each month after school to deepen their knowledge of laboratory techniques by performing advanced experiments.

CityLab's SummerLab Biotechnology Program

Have you ever wondered what it would be like...

to work in a biotechnology laboratory?

to genetically engineer a protein?

to make medicines?

If you answered YES to any of these questions, then SummerLab is for you!

At SummerLab, you will learn biotechnology techniques associated with recombinant DNA, protein purification, cell lysis, and gel electrophoresis.

You will act as a member of a research team and will use state-of-the-art equipment to perform experiments of their own design.

Fast Facts

- Open to students entering the 10th grade through their first year of college.
- SummerLab is a one week program.

July 9– July 13	July 30– August 3
July 16– July 20	August 6– August 10
July 23– July 27	August 13– August 17

- SummerLab runs from 9-3 daily.
- Commuters and boarders are welcome.
- Housing is available on the Charles River Campus (additional fees apply).
- Located on Boston University's Medical Campus.
- Online applications and additional information can be found at www.bumc.bu.edu/citylab or by calling 617-638-5665.

SummerLab culminates in a poster session for family, friends, and fellow BU scientists.
