

National Institutes of Health Summer Virtual Webinars for High School Students

NIH Summer Enrichment Curriculum 2023: Career Development on Wednesdays

The 2023 NIH Virtual Summer Enrichment Curriculum is ongoing. **All events/activities are free.**

To help you sharpen your science skills and develop both professionally and personally, we have developed a summer-long series of activities. This summer's online curriculum will focus on the exciting science we do at the NIH and on career/professional development, and wellness topics for students at all educational levels. We encourage you to look at all the program offerings and identify events that will help you achieve your scientific and career goals. [Curriculum for High School Students and Recent Graduates](#)

Becoming a Resilient Scientist Series: Summer & Fall 2023

The NIH offers a [series of workshops](#) to help you develop your confidence and resilience in various challenging situations. The series includes four (Summer) or five (Fall) webinars, each followed by a small-group discussion. These sessions focus on strategies for academic success, thriving in research and healthcare careers, building resilience, overcoming obstacles, and mentoring. Attending the entire series is recommended as concepts and themes will be developed progressively, allowing you to integrate and refine the information. Previous participants reported increased resilience, improved stress management, and highly recommended the series. For more information and schedule, please visit [here](#):

July 6 – August 1: Students in High School and Recent High School Graduates_

NIH OITE Summer Lecture Series

Every summer, OITE organizes a summer lecture series for our summer interns, featuring some of the biggest names at NIH. Come hear from Dr. Janice Lee and Dr. Eliseo Pérez-Stable as they discuss their career journeys and current research. These lectures are **hybrid and open to the public**, including people outside the NIH.

[Summer Lecture Series I: A Conversation with Dr. Janice Lee](#)
