Featured Grant

[Damon Runyon Cancer Research Foundation. Damon Runyon - Rachleff Innovation Award](#)

Deadline: June 1, 2011

The Damon Runyon-Rachleff Innovation Award is designed to provide support for the next generation of exceptionally creative thinkers with "high-risk/high-reward" ideas that have the potential to significantly impact our understanding of and/or approaches to the prevention, diagnosis or treatment of cancer. The Innovation award is specifically designed to provide funding for extraordinary early career researchers who have an innovative new idea but lack sufficient preliminary data to obtain traditional funding. It is not designed to fund incremental advances. The research supported by the award must be novel, exceptionally creative and, if successful, have the strong potential for high impact in the cancer field. Awards are made to institutions for support of the Damon Runyon-Rachleff Innovation Investigators. The award will be for a period of 3 years. Each award will provide a total of \$450,000 in direct costs. The award cannot be used for indirect costs or institutional overhead. Awards will be paid in increments of \$150,000 per year for 3 years. [Get Details.](#)
