

# Boston University Job Opportunities

## Assistant Professor of Biology, Microbial Ecology

### Tracking Code

9186/10512

### Job Description

The Biology Department invites applications for a tenure-track Assistant Professor appointment in microbial ecology (beginning Fall 2013, subject to budgetary approval). We seek a colleague using cutting-edge techniques (e.g., genomics, proteomics) to study microbes and their regulation of ecological interactions, ecosystem function, biogeochemical cycles, and/or global change in terrestrial or aquatic systems. Applicants must have a PhD in a relevant field and are expected to have postdoctoral experience and a strong publication record. Responsibilities include establishing a research program with extramural funding and participating in both undergraduate and graduate teaching, including an undergraduate course in Microbiology. The successful candidate will be offered newly renovated laboratory facilities, a competitive salary and start-up package, and will have the opportunity to participate in interdisciplinary graduate programs in Biogeoscience and Bioinformatics/Systems Biology.

### Required Skills

Requires: Applicants must have a PhD in a relevant field and are expected to have postdoctoral experience and a strong publication record.

Boston University is an Affirmative Action/Equal Opportunity Employer.

### Required Experience

**DO NOT APPLY THROUGH THE BOSTON UNIVERSITY HR WEBSITE.**

Review of applications will begin Nov. 15, 2012. Please use AcademicJobsOnline (<https://academicjobsonline.org/ajo/jobs/1039>) to submit a cover letter, curriculum vitae, statements of research and teaching interests, and three representative reprints, and arrange for three letters of reference to be submitted through the same website. Inquiries can be addressed to Prof. Adrien Finzi, Chair, Microbial Ecology Search Committee, at [microb11@bu.edu](mailto:microb11@bu.edu).

Please visit the following websites for additional information about the Biology Department (<http://www.bu.edu/biology/>) and interdisciplinary Graduate Programs in Biogeoscience (<http://www.bu.edu/bio-geo/home/>) and Bioinformatics (<http://www.bu.edu/bioinformatics/>).
