Spotlight

Student Spotlight:

Jeff Kuniholm

When Jeff Kuniholm attended his interview day for the Program in Biomedical Sciences PhD program at Graduate Medical Sciences, he was immediately impressed by the sense of comradery in the graduate school.

“People were very willing to talk to one another, shake your hand, and introduce themselves,” he said. “That kind of loosened me up as an interviewee where I got to really know some of the faculty here, and it just sold it for me where I was fully on board after that.”
