Advance Care Planning in the COVID-19 Era and Beyond
Shravya Budidi, DO., Ryan Chippendale, MD., May Soliz, MD

Introduction
Effective ACP results in respecting our patients values and preferences at end of life. While the importance of ACP is well established, there are multiple barriers that challenge health care providers in having these discussions with their patients.

Methods/Intervention
Aim: Address barriers through implementation of an ACP curriculum in residency.

1. Setting: Family Medicine Residency

2. Physician Survey Assessment
   • Confidence
   • Competence
   • Barriers to ACP

3. Implementation of ACP Didactics

4. Post-Assessment Survey
   • Understanding ACP
   • Confidence in facilitating discussions in clinic and virtual platforms.

Results

71% have facilitated ACP discussions in clinic after the session
40% of those who conducted ACP in clinic also conducted ACP virtually

One Month Post Assessment

Confidence In ACP
