Team Debate: A Novel Pedagogical Approach to Promote Ethical and Professional Development and Clinical Competency

Purpose: Curriculum for pre-clinical and professional students involving small group prep work, class mini debates and individual reflection to develop non-biased, culturally competent, ethical skills

Design
Scenario: Student dental mission trip → clinical skills & renewed motivation

Eight groups (44 students)

Debate progressive scenarios

Defended one POV

Debate Scenarios

➢ Genuine desire to help
➢ Responsible for actions
➢ Self-awareness ➢ skills & limitations
➢ Need for Policy
➢ Quality care / Patient rights ➢ US, abroad, clinic or underserved communities

Student Reflections

Theresa A. Davies, PhD., Director, MS in Oral Health Sciences Program, Graduate Medical Sciences
