

Mnemonics for TAP

Path through male reproductive system:

STEVE

Seminiferous Tubules

Epididymis

Vas deferens

Ejaculatory duct

Scrotum layers:

Some **D**ays **E**ddie **C**an **I**rritate **P**eople **V**ery **T**horoughly

Skin

Dartos layer

External spermatic fascia

Cremaster muscle

Internal spermatic fascia

Parietal tunica vaginalis

Visceral tunica vaginalis

Tunica albuginea

Lumbar plexus:

I **I**s **G**etting **L**aid **O**n **F**riday

Iliohypogastric [L1]

Ilioinguinal [L1]

Genitofemoral [L1, L2]

Lateral femoral cutaneous [L2, L3]

Obturator [L2, L3, L4]

Femoral [L2, L3, L4]

Which bronchi is more vertical:

"Inhale a **bite**, goes down the **right**"

Contents of spermatic cord:

3 arteries: testicular, cremasteric, artery to vas deferens

2 nerves: genital branch of genitofemoral, sympathetics

3 other things: vas deferens, pampiniform plexus, lymphatics

Muscles of respiration:

Don't **E**xercise **I**n **Q**uicksand

Diaphragm

External intercostals

Internal intercostals

Quadratus

Diaphragm innervation:

"C3, 4, 5 keeps the diaphragm alive"

C3, 4, 5 innervate diaphragm

Retroperitoneal structures:

AC/DC Rocker Kids Party Down

Ascending Colon

Descending Colon

Rectum

Kidneys

Pancreas

Duodenum

Superior mediastinum:

PVT Left BATTLE

Phrenic nerve

Vagus nerve

Thoracic duct

Left recurrent laryngeal nerve

Brachiocephalic veins

Aortic arch and its 3 branches

Thymus

Trachea

Lymph nodes

Esophagus

Posterior mediastinum:

4 birds

esopha**GOOSE**

va**GOOSE** nerve

azy**GOOSE** vein

thoracic **DUCK**

Lingula of lung:

Lingula is on **Left**

Pulmonary artery to bronchi:

RALS

Right lung artery is **Anterior** to bronchus

Left lung artery is **Superior** to bronchus

Spermatic cord contents:

"Piles Don't Contribute To A Good Sex Life"

Pampiniform plexus

Ductus deferens

Cremasteric artery

Testicular artery

Artery of the ductus deferens

Genital branch of the genitofemoral nerve

Sympathetic nerve fibers

Lymphatic vessels

Mesonephric duct derivatives:

SEED

Seminal vesicles
Epididymis
Ejaculatory duct
Ductus deferens

Paramesonephric duct derivatives:

PUF

Part of vagina
Uterus
Fallopian tubes

Metanephric duct derivatives:

UK

Ureter
Kidney

Tetralogy of Fallot:

"IHOP"

Interventricular septal defect
Hypertrophy of right ventricle
Overriding aorta
Pulmonary stenosis
