HRSA-16-188: Jurisdictional Approach to Curing Hepatitis C Among HIV/HCV Coinfected People of Color

Dear Colleagues,

The Health Resources and Services Administration has announced its program HRSA-16-188: Jurisdictional Approach to Curing Hepatitis C Among HIV/HCV Coinfected People of Color - Evaluation and Technical Assistance Center.

PROGRAM DESCRIPTION:
This announcement solicits applications for funding of a cooperative agreement to support one (1) organization for up to three years to coordinate the efforts of up to four (4) Ryan White HIV/AIDS Program (RWHAP) Parts A and B recipients funded under a separate announcement (HRSA-16-189). The purpose of the Jurisdictional Approach to Curing Hepatitis C among HIV/HCV Coinfected People of Color – Evaluation and Technical Assistance Center initiative is to increase RWHAP Parts A and B jurisdiction-level capacity to provide comprehensive screening, care, and treatment for hepatitis C (HCV). These enhanced jurisdictional systems will increase the numbers of HIV/HCV coinfectected people of color who are diagnosed, treated, and cured of HCV infection.

ELIGIBILITY:

FUNDING INFORMATION: The HRSA expects to fund one cooperative agreement for three years at up to $550,000 per year.

DEADLINES:
Internal Deadline: June 15, 2016
Agency Deadline: July 14, 2016

APPLICATION PROCESS:
Boston University Medical Center and BMC may each submit one application to this program. If you are interested in applying, please send an email indicating your interest to Diana Lehman (dlehman@bu.edu) by June 15, 2016. If we have more candidates than we are allowed to submit, we will conduct an internal review to select our final applicant.

Thank you.

Thomas J. Moore, MD
