**OBJECTIVE:** The National Library of Medicine seeks applications for novel informatics and data science approaches that can help individuals gather, manage and use data and information about their personal health. A goal of this program is to advance research and application by patients and the research community through broadly sharing the results via publication, and through open source mechanisms for data or resource sharing.

**FUNDING INFORMATION:** Up to $250,000 direct costs may be requested in any single year. The total project may not exceed 4 years.

**INTERNAL SELECTION PROCESS:** Boston University may submit one proposal from each campus for a total of two proposals. Interested faculty should submit the following materials by **Tuesday, Jan. 8, 2019**:

- Questions outlined in [InfoReady Review](#) application
- One page project summary of proposed research
- CV/biosketch for PI and other participants

**DEADLINES:**

- **Internal Materials Due:** Tuesday, Jan. 8, 2019
- **Sponsor Deadline:** Friday, Jan. 18, 2019

In requesting to be considered by the Vice President and Associate Provost for Research for this limited submission funding opportunity, you are making a commitment, if selected, to submit your proposal to the sponsor in a timely manner and to Sponsored Programs in accordance with the [Proposal Submission Policy](#).
