Abstract Due August 28, 2015

The conference will include eight oral sessions and one poster session covering the latest findings across many topics in respiratory biology. Abstracts with new and unpublished data are encouraged. Selection for short talks (10-20) and poster presentations will be made by the organizing committee on the basis of scientific merit and relevance.

Major Topics
1. Lung morphology and development.
2. Genetic regulation of lung function.
3. Lung acute injury and infection.
4. Lung chronic inflammatory diseases.
5. Lung cancer and proliferative diseases.
8. Emerging concepts in respiratory immunity.

Fellowships

We are eager to support as many junior scientists as possible. Certain number of presentations by graduate students or postdocs in this conference will be evaluated for fellowship awards (USD 100-500).
