EVI Priority Matrix

Prioritize activities based on criteria:

Criteria	How to determine
Equity/Impact:	• Which activity will advance equity, vitality, and/or inclusion? • Which activity feels most important or timely? • Which activity will move the dial (culture management vs. culture change)?
Feasibility:	• Which activity fits within the capacity of the team? • Are there systems already in place that can support an activity? • Which activity aligns with another institution/department initiative?
Time/Resources:	• Which activity can be achieved in a reasonable timeframe? Or, can a component of an activity be achieved in the short term?
