

# Meet the BUMG Board of Trustees: Thamarah Crevecoeur, CNM, Obstetrics & Gynecology

**What drew you to serve as a trustee on the BUMG Board?**

I just think it's important for us to do things from the bottom down. I could bring the perspective of being a patient and I'm the first APP to serve on the Board!

**What do you enjoy most about serving on the board?**

What I enjoy most is learning about how the organization works and what some of the priorities are. I enjoy contributing in high level conversations.

**If there's one thing, as a board member, you'd want to communicate with BUMG clinicians, what would that be?**

Sometimes Boards can feel like this ethereal body . We want faculty to know we hear them and we see them

**What do you see as the biggest challenges facing BMC and BUMG?**

Trying to connect the dots and seeing what we're doing at an instructional level. For instance, when new policies are issued by the government, how do we disseminate them and make sure they're being followed correctly?

**What is an interesting fact about you that no one would guess?**

In college, because there was another girl in my dorm whose name was Tammy, and I had moved from Miami to Boston, my nickname was, "Tammy from Miami."

**Do you enjoy reading books? If so, what have you read lately that you enjoyed?**

Yes! I am reading the *Black Cake*. It was just made into a TV show. It's about a woman growing up in Jamaica in the 1950's.

**What are you watching on Netflix?**

*Blood and Water*. It's about a teenage girl whose sister goes missing and she has to find her. It's my guilty pleasure.

**Do you have any hobbies?**

Running. Dancing; all types of dance. I love listening to music. Gospel, rock, oldies (The Supremes, The Beach Boys) and rap.

**Is there anything else you would like to share with the BUMG clinicians?**

We have a wonderful, diverse group of trustees! Whether we're focused on one thing or many, we always have different opinions and perspectives.
