

PATHOLOGY SEMINARS, FALL TERM 2011

FRIDAYS, 1:45-2:45 PM* one exception

670 ALBANY STREET – LOBBY LEVEL – ROOM #107/108* one exception

REFRESHMENTS AT 1:30 P.M.

***There are two exceptions**

SEPTEMBER

TALK TITLES

***14 Stephen Galli, MD**

Chair, Department of Pathology,
Chief, Pathology Service, Stanford Hospital & Clinics
Co-Director, Stanford Center for Genomics and Personalized Medicine
Professor of Pathology and of Microbiology and Immunology
Mary Hewitt Loveless, MD Professor

*The Mast Cell Paradox:
Mast Cells at the Interface
of Health & Disease*

***Note: Joint Seminar with ITP : Wednesday Seminar at 12:00 PM, replacing Friday Seminar**

23 Patricia Kao, PhD Candidate

Department of Pathology and Laboratory Medicine
Boston University School of Medicine
Delalle Lab

*Identifying Regulators of Brain Reserve
in Early Alzheimer's Disease Patients*

30 Hongbo Luo, PhD

Associate Professor of Pathology
Harvard Medical School

*Reshaping Innate Immunity via
Modulating Neutrophil Function*

OCTOBER

7 Feng Zhang, PhD

Associate Professor of Neurosciences
Department of Brain and Cognitive Sciences
Massachusetts Institute of Technology

*Reverse Engineering the Brain:
from Genes to Circuits*

14 Srimathi Srinivasan, PhD Candidate

Department of Pathology and Laboratory Medicine
Boston University School of Medicine
Rahimi Lab

*PDCL3 Regulates Angiogenesis through
the Generation of Functional VEGFR-2*

21 Rhoda Alani, MD

Professor and Chair, Department of Dermatology
Boston University School of Medicine

*Understanding Melanoma:
From Bedside to Bench and Back*

Boston University School of Medicine is accredited by the Accreditation Council for Continuing Medical education to provide continuing medical education for physicians. Boston University School of Medicine designates this educational activity on an hour-for-hour basis in category 1 credit towards the AMA Physician's Recognition Award. Each physician should claim only those credits that he/she actually spent in the activity.

Department of Pathology and Laboratory Medicine

Boston University School of Medicine, 72 East Concord Street, Boston, MA -2118-2526

28 Paul Chang, PhD

Assistant Professor
Koch Institute for Integrated Cancer Research
Massachusetts Institute of Technology

*PARP Proteins Function in Diverse
Cytoplasmic Stress Pathways*

***Note: Seminar will take place in room R-103 (in the Instructional Building)**

NOVEMBER

4 Wenyi Wei, PhD

Assistant Professor of Pathology
Beth Israel Deaconess Medical Center
Harvard Medical School

*The role of APC and SCF E3
Ubiquitin Ligase Complexes in Tumorigenesis
and Cell Cycle Regulation*

11 VETERAN'S DAY HOLIDAY –

NO SEMINAR

18 Athan Kuliopulos, MD, PhD

Associate Professor of Medicine, Biochemistry and Genetics
Tufts University School of Medicine

The First MMP in Sepsis and Thrombosis

25 THANKSGIVING DAY HOLIDAY

NO SEMINAR

DECEMBER

2 Alexei Degterev, PhD

Assistant Professor of Biochemistry
Tufts University School of Medicine

*Development of Small Molecule Antagonists
of Phosphatidylinositol-3,4,5-triphosphate
(PIP3) Signaling"*

9 Elly Nedivi, PhD

Associate Professor of Neurobiology
Department of Brain and Cognitive Sciences
Massachusetts Institute of Technology

*Insights into Mechanisms of Activity-dependent
Plasticity from Genetic and Imaging Approaches*
