**Levels of Responsibility**

**Presenting Conditions**

**All:** Students are expected to take a patient history, conduct a physical exam, and provide both an assessment and treatment plan inclusive of anticipatory guidance and counseling where appropriate.

**Alternative Experience:** Students complete the requirement by participating in a simulation, standardized patient exercise, case-based session or online module.

**Procedures**

**Sim = Simulation or task trainer:** Student performs a procedure or skill in simulation or by using a task trainer

**P = Procedure:** Students are expected to perform the procedure/skill on a patient

**O = Observation:** Students are expected to observe a procedure done on a patient
