

“I was inspired to help the employees at Peets/Chequers because while all of this [COVID-19 pandemic] was happening I thought, "what of the hourly workers at Peets/Chequers?". These people have been with us throughout our medical school experience as much as anyone else. They are like our family, and as such no one in the BUSM family should go without during these challenging times. They are one of us as much as anyone else in this institution.”

Andrea Alonso, MD, (MED'20)
