## BUSM Medical Education Program Objectives

**A BUSM graduate will be able to:**

<table>
<thead>
<tr>
<th>Establish and maintain medical knowledge necessary for the care of patients (MK)</th>
<th>MK.1</th>
<th>Describe the normal development, structure, and function of the human body.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>MK.2</td>
<td>Recognize that a health condition may exist by differentiating normal physiology from pathophysiologic processes.</td>
</tr>
<tr>
<td></td>
<td>MK.3</td>
<td>Describe the risk factors, structural and functional changes, and consequences of biopsychosocial pathology.</td>
</tr>
<tr>
<td></td>
<td>MK.4</td>
<td>Select, justify, and interpret diagnostic tests and imaging.</td>
</tr>
<tr>
<td></td>
<td>MK.5</td>
<td>Develop a management plan, incorporating risks and benefits, based on the mechanistic understanding of disease pathogenesis.</td>
</tr>
<tr>
<td></td>
<td>MK.6</td>
<td>Articulate the pathophysiologic and pharmacologic rationales for the chosen therapy and expected outcomes.</td>
</tr>
<tr>
<td></td>
<td>MK.7</td>
<td>Apply established and emerging principles of science to care for patients and promote health across populations.</td>
</tr>
<tr>
<td></td>
<td>MK.8</td>
<td>Demonstrate knowledge of the biological, psychological, sociological, and behavioral changes in patients that are caused by or secondary to health inequities.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Demonstrate clinical skills and diagnostic reasoning needed for patient care (CSDR)</th>
<th>CSDR.1</th>
<th>Gather complete and hypothesis driven histories from patients, families, and electronic health records in an organized manner.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>CSDR.2</td>
<td>Conduct complete and hypothesis-driven physical exams interpreting abnormalities while maintaining patient comfort.</td>
</tr>
<tr>
<td></td>
<td>CSDR.3</td>
<td>Develop and justify the differential diagnosis for clinical presentations by using disease and/or condition prevalence, pathophysiology, and pertinent positive and negative clinical findings.</td>
</tr>
<tr>
<td></td>
<td>CSDR.4</td>
<td>Develop a management plan and provide an appropriate rationale.</td>
</tr>
<tr>
<td></td>
<td>CSDR.5</td>
<td>Deliver an organized, clear and focused oral presentation.</td>
</tr>
<tr>
<td></td>
<td>CSDR.6</td>
<td>Document patient encounters accurately, efficiently, and promptly including independent authorship for reporting of information, assessment, and plan.</td>
</tr>
<tr>
<td></td>
<td>CSDR.7</td>
<td>Perform common procedures safely and correctly, including participating in informed consent, following universal precautions and sterile technique while attending to patient comfort.</td>
</tr>
<tr>
<td></td>
<td>CSDR.8</td>
<td>Utilize electronic decision support tools and point-of-care resources to use the best available evidence to support and justify clinical reasoning.</td>
</tr>
<tr>
<td></td>
<td>CSDR.9</td>
<td>Recognize explicit and implicit biases that can lead to diagnostic error and use mitigation strategies to reduce the impact of cognitive biases on decision making.</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Effectively communicate with patients, families, colleagues and interprofessional team members (C)</th>
<th>C.1</th>
<th>Demonstrate the use of effective communication skills, patient-centered frameworks, and behavioral change techniques to achieve preventative, diagnostic, and therapeutic goals with patients.</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>C.2</td>
<td>Clearly articulate the assessment, diagnostic rationale, and plan to patients and their caregivers.</td>
</tr>
<tr>
<td></td>
<td>C.3</td>
<td>Effectively counsel and educate patients and their families.</td>
</tr>
<tr>
<td></td>
<td>C.4</td>
<td>Communicate effectively with colleagues within one’s profession and team, consultants, and other health professionals.</td>
</tr>
<tr>
<td></td>
<td>C.5</td>
<td>Communicate one’s role and responsibilities clearly to other health professionals.</td>
</tr>
</tbody>
</table>

<td>HS.1</td>
</tr>
<tr>
<td></td>
<td>HS.2</td>
</tr>
<tr>
<td></td>
<td>HS.3</td>
</tr>
</tbody>
</table>
A BUSM graduate will be able to:

| HS.4 | Work with the interprofessional team to coordinate patient care across healthcare systems and address the needs of patients. |
| HS.5 | Participate in continuous improvement in a clinical setting, utilizing a systematic and team-oriented approach to improve the quality and value of care for patients and populations. |
| HS.6 | Initiate safety interventions aimed at reducing patient harm. |
| HS.7 | Incorporate considerations of cost awareness and risk-benefit analysis in patient and/or population-based care. |
| HS.8 | Integrate preventive interventions into the comprehensive health care of individuals. |
| HS.9 | Explain how different health care systems, programs and community organizations affect the health of neighborhoods and communities. |

Exhibit commitment to promoting and advancing health equity for all patients (HE)

| HE.1 | Define health equity and describe the individual and population level differences in health outcomes and disease burden due to inequities in health care. |
| HE.2 | Comprehend the historical and current drivers of structural vulnerability, racism, sexism, oppression, and historical marginalization and how they create health inequity. |
| HE.3 | Explain how one’s own identity, lived experiences, privileges, and biases influences their perspectives of colleagues, patients and clinical decision making. |
| HE.4 | Comprehend and identify the impact of health care inequities through medical decision making tools, interpreting medical literature and reviewing scientific research. |
| HE.5 | Identify factors needed to advocate for a more diverse and equitable healthcare environment at a local, community, and systems based level. |

**BUSM Clerkship Learning Objectives**

During the third-year clerkships, students will:

- Demonstrate use of patient-centered interviewing and communication techniques
- Take a clinical history that demonstrates both organization and clinical reasoning
- Perform accurate and relevant physical exam techniques
- Demonstrate an ability to synthesize clinical information and generate a differential diagnosis, assessment and plan
- Demonstrate a compassionate and patient-sensitive approach to history taking and physical examinations
- Communicate well organized, accurate and synthesized oral presentations
- Counsel and educate patients and families
- Demonstrate timely, comprehensive and organized documentation
- Demonstrate a fund of knowledge in the clinical discipline and apply this to patient care
- Demonstrate an awareness of one’s own learning needs and work to address these gaps
- Show respect and empathy for others
- Demonstrate accountability to the responsibilities of the student’s role and expectations of a clinical clerk
- Communicate effectively with the interprofessional team
Obstetrics and Gynecology Clerkship Learning Objectives

At the end of the 3rd year clerkship in Ob/Gyn, the BUSM student will be able to:

- Demonstrate interpersonal and communication skills that build trust by addressing relevant factors including culture, ethnicity, language/literacy, socioeconomic status, spirituality/religion, age, sexual orientation and disability.
- Perform a medical interview and physical examination with confidence and incorporate ethical, social, and diversity perspective to provide culturally competent health care.
- Apply recommended prevention strategies to women during their entire life.
- Recognize their role as a leader and advocate for women.
- Exhibit the knowledge of preconception counseling including: genetics, medical conditions, and environmental factors on maternal and fetal health.
- Explain normal physiologic changes during pregnancy and interpret common diagnostic studies.
- Describe medical and surgical obstetric problems.
- Demonstrate knowledge of intra partum care.
- Express knowledge of postpartum care of the mother and newborn.
- Illustrate menstrual cycle physiology, discuss puberty, abnormal bleeding and menopause.
- Depict the etiology and evaluation of infertility and pediatric gynecology.
- Develop a thorough understanding of contraception, including sterilization and abortion.
- Display knowledge of common benign gynecological conditions including but not limited to urogynecology, vulvar disease, and STIs.
- Formulate a differential diagnosis of the acute abdomen and chronic pelvic pain.
- Explain common breast conditions and outline the evaluation of breast complaints.
- Demonstrate knowledge of perioperative care and familiarity with gynecological procedures.
- Describe gynecological malignancies including risk factors, signs and symptoms and initial evaluation.
- Provide a preliminary assessment of patients with sexual concerns.
- Perform a pelvic and breast exam under supervision according to the competency-based evaluation guidelines.
- Demonstrate the ability to gather a focused gyn history, perform an appropriate prenatal visit, illustrate motions of vaginal delivery and communicate effectively in oral and written presentations.
Contact Information

Clerkship Director
LaKedra Pam, MD
Assistant Professor
Telephone: (617) 414-3440
Email: LaKedra.Pam@bmc.org
Pager: 0852
Office: Dowling 4th Floor Room 4112

Associate Clerkship Director
Ebonie Woolcock, MD, MPH
Clinical Instructor
Telephone: (617) 414-7481
Email: Ebonie.Woolcock@bmc.org
Pager: 2804
Office: Dowling 4th Floor Room 4417

Clerkship Coordinator
Makeba Kent
Medical Education Coordinator
Telephone: (617) 414-7481
Email: Makeba.Kent@bmc.org
Pager: 6700
Office: Dowling Building, 4th Floor, Room 4315
GENERAL CLERKSHIP STRUCTURE

The obstetrics and gynecology clerkship is required six week rotation in the third year. Each block of students will spend the equivalent of 2 weeks on the Gynecology Service and 2 weeks on the Obstetrics service at all sites. Throughout the rotation ambulatory experiences are obtained in both general and specialty clinics.

Students will receive teaching as appropriate, from attending physicians, residents, midwives and other providers involved in the care of patients at your practice. Students will take overnight call during the block and go home post call after overnight calls. In addition to the clinical experiences, there are weekly didactics offered Wednesdays. The topics for these sessions are derived from Association of Professors of Gynecology and Obstetrics (APGO) Medical Student Educational Objectives.

REQUIRED PATIENT ENCOUNTERS AND PROCEDURES

</tbody>
</table>

Presenting Conditions

All: Students are expected to take a patient history, conduct a physical exam, and provide both an assessment and treatment plan inclusive of anticipatory guidance and counseling where appropriate

Alternative Experience: Students complete the requirement by participating in a simulation, standardized patient exercise, case-based session or online module.

Procedures

Sim=Simulation or task trainer: Student performs a procedure or skill in simulation or by using a task trainer
P=Procedure: Students are expected to perform the procedure/skill on a patient
O= Observation: Students are expected to observe a procedure done on a patient
ALTERNATIVE PATIENT ENCOUNTERS

If a student has not been able to experience all patient encounters required for the clerkship, students must address any gaps in their patient encounters through an alternative experience. In this clerkship, the alternative experiences are participating in a simulation, standardized patient exercise, case-based session, or online module. Students must notify the Clerkship Directors and Coordinator by the end of the 2nd week of the clerkship so arrangements can be made for the student to see these encounters.

OTHER CLERKSHIP REQUIREMENTS

Completion of the clinical skills feedback book. The required Ob/Gyn Focus Forms are listed below. These can be found in the passport booklet.

- Interview and Data Gathering
- Physical Exam
- Patient Communication/Counseling
- Documentation

EVIDENCE BASED MEDICINE CASE PRESENTATION (5% of the final grade):

All students will give an evidence-based medicine case presentation that addresses a clinical question raised by a case they have seen. This presentation will focus on a literature review presenting four to six studies. The presentation will be given at BMC for students who are at BMC, Lahey, and St. Elizabeth’s and presented to peers during Wednesday learning activities. Students at Mt Auburn, Kaiser and MetroWest will present at their respective sites to an audience of attendings. All sites will use the same grading rubric.

The presentation is graded by the following criteria:

- Presentation Skills
- Organization
- Case/Topic Selection
- Presentation of EBM
- Discussion of Case/EBM
General Responsibilities of the Clinical Faculty

Goals of the Clinical Clerkship
During the clinical clerkships at BUSM we aim to create a learning climate where students have the opportunity to learn high quality clinical skills by:

- Creating a culture that challenges and supports the students
- Providing opportunities for meaningful involvement in patient care with appropriate supervision
- Role modeling by exemplary clinicians
- Coaching students by setting clear expectations, providing frequent observations of core clinical skills, asking questions to assess knowledge and reasoning, explicitly modeling and providing timely, specific feedback

Clerkship Structure
Each clerkship is run by a clerkship director. Each clerkship clinical site is run by a clerkship site director who ensures that students are appropriately supervised. In addition, clerkships usually have multiple clinical faculty that have varying degrees of exposure to the student.

Overall Responsibilities
Each clerkship is directed by the BUSM Clerkship Director who oversees all clerkship sites. Each clinical site is directed by a clerkship site director who ensures that students are appropriately supervised and faculty and residents are prepared to teach at their site. Clerkships also have multiple clinical faculty that have varying degrees of exposure to students. The responsibilities of the directors and coordinators are described below more specifically. Clerkship directors are assisted by assistant clerkship directors, clerkship site directors, and clerkship coordinators.

BUSM Clerkship Director & Assistant Clerkship Director
- Oversees the clerkship curriculum’s design, implementation, and administration
- Defines clerkship specific learning objectives and requirements
- Creates and maintains an appropriate learning environment, modeling respectful and professional behaviors for and toward students
- Ensures student and faculty access to appropriate resources for medical student education
- Orient students to the overall clerkship, including defining the levels of student responsibility requirements (i.e., required diagnoses and procedures, direct observations, forms, feedback) grading structure and student schedule
- Oversees teaching methods (e.g., lectures, small groups, workshops, clinical skills sessions, and distance learning) to meet clerkship objectives
- Develops faculty involved in the clerkship and provide faculty development across sites specific to clerkship needs
- Evaluate and grade students
  - Develops and monitors assessment materials
  - Uses required methods for evaluation and grading
  - Assures timely mid-clerkship meetings at all sites with students
Ensures students receive timely and specific feedback on their performance
Submits final grade form for students via BUSM evaluation system
• Evaluates clerkship, faculty, and programs via peer review and annual data from the Medical Education Office (MEO) and national organizations (AAMC, NBME, etc.)
• Supports each student’s academic success and professional growth and development, including identifying students experiencing difficulties and providing timely feedback and resources
• Address any mistreatment and professionalism concerns in real time and communicate with MEO
• Participates in the BUSM clerkship Educational Quality Improvement and peer review processes with completion of action items
• Ensures LCME accreditation preparation and adherence
• Adheres to the AAMC-developed guidelines regarding Teacher-Learner Expectations

Overall Clerkship Coordinator
• Supports the clerkship director in their responsibilities above
• Creates and maintains an appropriate learning environment, modeling respectful and professional behaviors for and toward students
• Responds within one business day to student emails and questions
• Maintains student rosters and clinical schedules
• Coordinates orientations and didactic sessions
• Liaises with site directors and administrators to coordinate student experiences across all sites and timely collection of evaluations
• Verifies completion of clerkship requirements, including midpoint and final evaluations for each student, required diagnoses, and FOCuS forms
• Monitors students’ reported work hours and report any work hours violations to the clerkship director
• Coordinates and proctors clerkship exams

Clerkship Site Director
• Oversees the clerkship curriculum and administration at the site
• Creates and maintains an appropriate learning environment, modeling respectful and professional behaviors for and toward students
• Is available and responsive to students’ questions and concerns
• Ensures all faculty and residents teaching students are oriented to students’ expectations, responsibilities, learning objectives, requirements, and assessments used in the clerkship
• Ensures student and faculty access to appropriate resources for medical student education
• Oriented students to the clinical site when new students arrive at the site
• Reviews clerkship requirements and student expectations at site
  • Provides site specific information including, but not limited to, lockers, library, call rooms as applicable and required by LCME
  • Reviews site-specific schedule, discusses student role and responsibilities at site, supervision at site, and who to contact with questions and concerns
• Supervises students and ensures clerkship specific required observations are completed
• Meets with the student for the Mid-clerkship review
• Meets with the student for the final exit meeting
• Ensures timely and specific formative feedback based on direct observations
• Works with faculty and residents to delegate increasing levels of responsibility to students based on clerkship requirements
• Provides site didactics when applicable
• Recognizes students with academic or professionalism difficulties and communicates to Clerkship Director in a timely fashion
• Completes and ensures the accuracy of student evaluation forms, including formative and summative narratives for students at the site
  o Ensures collection of feedback and evaluation data from all physicians who work with each student by the end of the clerkship block to meet BUSM grading deadlines
  o Ensures that narrative data are consistent with and support numerical data
  o Evaluates students fairly, objectively, and consistently following medical school and clerkship rubrics and guidelines
• Addresses any student mistreatment concerns immediately and notifies the Clerkship Director
• Adheres to the AAMC Teacher-Learner Expectations guidelines
• Reviews site specific evaluations at mid-year and end of year and facilitates improvements based on data
• Works with BUSM to provide faculty development for faculty and residents
• Answers Clerkship Director’s questions or concerns regarding site evaluation or student concerns
• Participates in educational programming and meetings as requested by Clerkship Director or Assistant Dean for Affiliated Sites
• Adheres to LCME guidelines

Clerkship Site Coordinator
• Supports the clerkship site director in their responsibilities above
• Creates and maintains an appropriate learning environment, modeling respectful and professional behaviors for and toward students
• Responds within one business day to student emails and questions
• Sends out welcome email informing students where and when to arrive at least 72 hours before student start date
• Provides students with their contact information and remains available for questions and concerns during working days and hours
• Ensures students are oriented to clinics and hospital
• Obtains, tracks, and manages student rosters
• Obtains and maintains student information required by the site, as applicable
• Creates and distributes:
  o Student schedules to students, faculty, and staff before clerkship start date
  o Didactics/Presentation schedules, if applicable
• Schedules mid-clerkship evaluations; tracks and keeps record of completion and provides to overall Clerkship Coordinator
• Informs faculty and overall Clerkship Coordinator of student absences
• Arranges and schedules educational resources as applicable (e.g., SIM lab, EMR & Scrub training) and helps students troubleshoot
• Provides students with necessary documents and resources needed to be oriented to site
• Monitors and processes evaluations for distribution to faculty and residents
• Collects timely feedback from faculty for mid and end of clerkship evaluations to meet BUSM deadlines
• Collects feedback and evaluation data from all physicians who work with each student by end of clerkship block to meet BUSM grading deadlines
• Understands evaluation system and all site requirements
• Communicates site information changes (e.g., faculty, rotation details) to BUSM’s Clerkship Director and Clerkship Coordinator
• Maintains communication with Clerkship coordinator centrally and response within one business day
• Coordinates site specific meetings and faculty development with BUSM

Primary Clinical Faculty/Preceptors/Trainees

• Sets and clearly communicates expectations to students
• Observes students’ history taking and physical exam skills, and documents it on the FOCuS form
• Delegates increasing levels of responsibility to students based on clerkship requirements
• Maintains appropriate levels of supervision for students at site
• Creates and maintains an appropriate learning environment, modeling respectful and professional behaviors for and toward students
• Recognizes students with academic or professionalism difficulties and communicates to Clerkship Director in a timely fashion
• Gives students timely and specific formative feedback based on direct observations
• Assesses students objectively using BUSM’s evaluation system
• Adheres to the AAMC Teacher-Learner Expectations guidelines

Orientation of the Student to the Clinical Setting

This sets the tone for the rest of the experience and has a direct effect on the success of the rotation for both student and preceptor. It can also reduce student anxiety. You should:

● Orient the student to the clinical setting, the staff, and team at your site
● Review workflow
● Discuss student’s learning experiences to date
● Discuss student’s learning goals

Setting Expectations for the Student

It is important to be clear regarding your expectations for the student. On the first day, describe the expectations around their role, presentations, documentation, and participation. Consider reviewing the assessment form and the specific expectations described. A tool to help set expectations with the student is the One Minute Learner, which can be found at:

https://www.stfm.org/publicationsresearch/publications/educationcolumns/2013/march/

Adapted from the Family Medicine’s Preceptor Manual, written by Miriam Hoffman, MD and Molly Cohen-Osher, MD
Updated 3/2022, Medical Education Office
Supervising the Student

Clinical faculty members should plan to observe the student performing as many of the following tasks as possible: history taking, focused physical exam, clinical problem-solving, interaction with patients, and patient education. As the supervisor establishes the student’s level of confidence and competency, the student may be delegated increasing levels of responsibility in patient care, as appropriate. Although students may initiate a particular patient encounter on their own and without direct supervision, the faculty must at some point review the encounter with the student and inform the patient in-person that the student’s assessment and management plan has been reviewed and approved by the faculty. The faculty is ultimately responsible for the evaluation, treatment, management, and documentation of patient care.

Under no circumstances should the following occur:

- Patient leaves the office/hospital with never having had a direct face-to-face encounter with clinical faculty.
- Primary faculty gives “prior approval” for student to perform intervention (order labs, prescribe meds) without satisfactory review.
- Patient leaves office/hospital without being informed that assessment/management plan has been directly reviewed and approved by the faculty.
- Learning in which a student is expected to perform an intervention or encounter without the prerequisite training and/or adequate supervision.
- Student note provides the only record of the visit. Although all faculty see all patients, faculty must document that they were actually the person responsible for seeing and examining the patient.

Intimate Exam Policy

Students participating in an intimate exam with a patient (which includes, pelvic, genitourinary and rectal exam) must have a chaperone with them, irrespective of the gender of the patient or the student. Permission to participate in an intimate exam must be obtained by the supervisor in advance of the examination itself. The patient has the right to decline student attendance at any examination. If a student is unable to perform any intimate exam due to patient preference, the student’s evaluation will not be impacted and if necessary, the clerkship director will provide an alternative experience.

Physical Exam Demonstrations

The demonstration of the physical examination on students should not be done by any supervisor of students including residents and attending faculty. Practicing the physical examination on students places them in a position where they may feel pressure to consent to something they may not feel comfortable with.
Federal Guidelines for documentation

CMS Guidelines from February 2, 2018, state:

“The Centers for Medicare & Medicaid Services (CMS) is revising the Medicare Claims Processing Manual, Chapter 12, Section 100.1.1, to update policy on Evaluation and Management (E/M) documentation to allow the teaching physician to verify in the medical record any student documentation of components of E/M services, rather than re-documenting the work. Students may document services in the medical record. However, the teaching physician must verify in the medical record all student documentation or findings, including history, physical exam and/or medical decision making. The teaching physician must personally perform (or re-perform) the physical exam and medical decision making activities of the E/M service being billed, but may verify any student documentation of them in the medical record, rather than re-documenting this work.”

EMR Documentation

- Students are allowed and encouraged to write complete notes in patient electronic charts as designated by the site and the site’s documentation policy.

Supervision and Delegating Increasing Levels of Responsibility

In general, the level of student responsibility and supervision will be commensurate with the student’s competency and level of confidence. The goal is that students be allowed to see patients on their own to the fullest extent possible. However, the Ob/Gyn department acknowledges the uniquely sensitive and intimate nature of clinical encounters within our specialty. Therefore, students should expect some variation in the level of independent responsibility they are given, with more sessions and encounters dedicated to observation. When a student feels that they are being asked to perform beyond their level of confidence or competency, it is the responsibility of the student to promptly inform the preceptor. It is then the preceptor’s responsibility to constructively address the student’s concerns and appropriately restructure the teaching encounter to address the student’s learning needs.

Student Assessment

BUSM CLINICAL STUDENT EVALUATION FORM (CSEF): BUSM utilizes the same clinical evaluation form for all clinical rotations. It is a behaviorally based evaluation tool. This means that you will grade your student based on their knowledge/skills/attitudes, rather than how they compare to other students.

For example, under “Data Synthesis/Diagnostic Skills”:

A 3rd year student who is competent in this domain:

- Identifies and attempts to prioritize patients’ major biopsychosocial problems and concerns, in the synthesis statement (i.e., “one-liner”)
Prioritizes differential diagnosis accurately for majority of common clinical problems specific to the patient including “can’t miss” diagnoses
Justifies differential diagnosis logically for common clinical problems by using relevant epidemiology (e.g., prevalence), pathophysiology, and pertinent positive and negative clinical findings
Occasionally makes the correct diagnosis for typical presentations of common diseases

- Not observed or not enough information to make a judgment
- Needs intensive remediation in this domain
- Needs directed coaching in this domain
- Approaching competency in this domain
- Competent in this domain
- Achieving behaviors beyond the 3rd year competency criteria

Use the target behaviors described above to provide a narrative of the student’s data synthesis skills

There is a description of the behaviors for students who are competent in each domain. Following that are the six choices.

- Not observed or not enough information to make a judgment: If you feel you have not observed a student enough to make a judgment in a certain domain, you should check off this category. That said, if you are able to make a judgment please do so – your feedback is vitally important to the student and their learning.
- Needs intensive remediation in this domain: These are students who despite coaching are unable to succeed in this domain. This category is consistent with a student who would fail in this domain.
- Needs directed coaching in this domain: These are students for whom faculty/residents need to spend significant time coaching in order to perform in this domain.
- Approaching competency in this domain: These are students who are meeting some but not all of the competency behaviors listed for the domain.
- Competent in this domain: These are students who are displaying the behaviors described for the domain.
- Achieving behaviors beyond the 3rd year competency criteria: These are students who are exceeding the behaviors described. The reach behaviors can be found at http://www.bumc.bu.edu/busm/files/2020/08/Third-Year-Reach-Behaviors.pdf.

For each category, you should describe the student’s skills you have observed. This section is required when a student is performing in any of the domains except “Competent in this Domain”. Educator development videos with additional guidance are available on our website:
http://www.bumc.bu.edu/busm/education/medical-education/faculty-resources/educator-development-videos/
Feedback

Feedback is vital for student learning and growth and should be given regularly. Feedback during a clerkship should be given multiple times which include: real-time feedback during patient care, recap feedback at the end of the session/day and summative feedback at the mid and end of the rotation. The FOCuS (Feedback based on Observation of Clinical Student) forms required for each clerkship provide formative assessment through direct observation of CSEF behaviors. FOCuS forms required for that clerkship must be completed for each student by the end of the rotation (See Appendix A for an example). Each clerkship will require one interviewing technique and one physical exam FOCuS form to be completed. The BUSM Formative Assessment and Feedback Policy can be found here: http://www.bumc.bu.edu/busc/education/medical-education/policies/formative-assessment-and-feedback/

Best practices regarding feedback include:

- Start with getting the student’s perspective on how they performed or are performing.
- Feedback should be specific and actionable. What could the student do differently next time?
- Feedback should be based on direct observation. i.e., what you have seen.
- Feedback should be timely (in close proximity to when you observed a behavior).
- Feedback should be respectful and encourage future growth.

Early Recognition of Learning Problems

The clerkship director and the medical school are committed to providing additional educational support as required for the student’s successful completion of the program. The clerkship director should be notified as soon as possible if the preceptor and/or student identify significant deficiencies. This will allow for supportive interventions to be implemented prior to the end of the clerkship.

If a primary faculty is concerned that the student may be at risk of receiving an unsatisfactory rating in ANY category, this information should be shared with the student face-to-face as soon as possible, and certainly during the mid-clerkship evaluation. Once informed, the student may wish to obtain additional academic assistance from the clerkship director and support personnel. Identifying potential problems early on allows the student the opportunity to enhance performance prior to the end of the clerkship. Faculty should also feel free to contact the clerkship director if learning difficulties or related problems are identified at any time. However, in fairness to the student, the primary faculty should also inform the student of the problem at that time.
**Mid Rotation Meeting**

The clinical faculty/site director should sit privately with the student at the mid-point in the rotation to give feedback. It is highly recommended that the faculty working directly with the student complete a copy of the Clinical Student Evaluation Form (CSEF) before the meeting, and then directly address each item on the CSEF with the student to provide more detailed feedback about how they are performing. Feedback for the student, including strengths and areas that need improvement should be reviewed (See Appendix B).

The site director/clerkship director and the student are required to complete the **BUSM Mid-clerkship Evaluation form** for the mid rotation meeting. Learning goals for the latter half of the clerkship should be discussed. The student’s patient log should be reviewed and a plan should be made for remediation of any deficiencies (e.g. strategizing how the student could see a patient with that clinical condition, discussing opportunities to complete the requirement with an alternative experience, etc.) The student should update and review the summary statistics of their duty hour log and patient log before their meeting with you. FOCuS forms should also be reviewed (Appendix A).

**Final Grade and Narrative Comments**

On the last day at the site, the site director and student are to meet for 15-30 minutes to review the final Clinical Student Evaluation Form. This session should allow for an important educational interchange between the clinical site director/faculty and the student. We strongly suggest that evaluations from other faculty and residents with whom the student has worked be collected, and that the evaluation form be completed by the site director PRIOR TO the meeting with the student if at all possible. This information is very important to students and is best reviewed with them directly. If you are unable to complete the evaluation form before the final interview, please submit it no later than one week after the end of the clerkship block. It should reflect as closely as possible the substance of your discussion with the student. The narrative portion of the form is especially important.

The comments sections of the CSEF are very important. The more specific you are, including examples, the more helpful the evaluation is to the student and the medical school. The **summative** comments get put in the students’ Dean’s letters that go out to residency programs- so having accurate, detailed information is very helpful. This box is where you should put what you observe about the student, trying to highlight their strengths and specifics of their performance. The second box is for **areas for improvement.** These are comments that are not included in the Dean’s letter. These are the constructive comments for the student- areas to work on, ways they can grow. We encourage every preceptor to provide information to the student in this section so that the student can have direction in what they need to work on in the future.
Example Narrative Comments:
This is an example of the type of summative comments that the medical school is looking for from one of our sites: (the student’s name has been replaced to maintain their anonymity)

“Rocco did an excellent job during his Family Medicine Clerkship. He is able to develop rapport with patients very quickly and meaningfully. He avoids medical jargon when speaking to patients. He is able to identify the patient’s major problems and reason through the most likely diagnosis. His physical exams skills are accurate. He should continue to think about his differential when completing his exam. He generates well thought out differential diagnoses and is able to routinely provide a rationale for his most likely diagnosis. By the end of the rotation, Rocco was able to discuss parts of the plan with the patient and do some brief patient education on nutrition and exercise. His progress notes were always appropriate, well organized, timely, and complete. His case presentations were organized, focused and complete. Rocco demonstrated a solid fund of knowledge right from the beginning and was able to answer questions. He should continue to explore the use of point of care resources in the clinical setting. He exhibited a very calm and professional manner when working with patients, putting them at ease and allowing for more effective and empathetic communication. He was active in the learning process. He routinely identified what he wanted to learn from the rotation and continued to work on those items up to the very last minute of the rotation. He exhibited a professional attitude towards the clinic staff and patients.”

Home Visit
Certain clerkships have home visits. Primary faculty need to provide complete instructions regarding the home visit and expectations for the student.

**Home visit safety**
Student and patient safety is a priority for home visits. **Students are required to go to their home visit with another student or clinician (MD, NP, RN, Resident, etc.).** At no time should a student participate in an experience where they are in danger or feel uncomfortable. Please assist the student in finding an appropriate patient for their home visit with respect to educational, patient care, logistical, and safety goals. Students are encouraged to talk with their preceptor or the clerkship director if they have questions or concerns at any point. The student should notify the primary preceptor or a designated staff member of the date and location of their home visit before they go to the patient’s home.

Important Clerkship Policies
**Attendance Policies**
On-site hours must be limited to 80 hours per week, averaged over a two-week period. Violations should be reported directly to the clerkship director or to an Associate Dean (Medical Education or Student Affairs). Time off requests must comply with the Attendance & Time Off Policy.

• Work Hours: [http://www.bumc.bu.edu/busm/education/medical-education/policies/work-hours/](http://www.bumc.bu.edu/busm/education/medical-education/policies/work-hours/)

• Religious Observance: [https://www.bu.edu/chapel/religion/religiouslifepolicies/](https://www.bu.edu/chapel/religion/religiouslifepolicies/)

**Appropriate Treatment in Medicine**

Boston University School of Medicine (BUSM) is committed to providing a work and educational environment that is conducive to teaching and learning, research, the practice of medicine and patient care. This includes a shared commitment among all members of the BUSM community to respect each person’s worth and dignity, and to contribute to a positive learning environment where medical students are enabled and encouraged to excel.

BUSM has a ZERO tolerance policy for medical student mistreatment. Students who have experienced or witnessed mistreatment are encouraged to report it using one of the following methods:

• Contact the chair of the Appropriate Treatment in Medicine Committee (ATM), Dr. Robert Vinci, MD, directly by email ([bob.vinci@bmc.org](mailto:bob.vinci@bmc.org))

• Submit an online Incident Report Form through the online reporting system [https://www.bumc.bu.edu/busm/student-affairs/atm/report-an-incident-to-atm/](https://www.bumc.bu.edu/busm/student-affairs/atm/report-an-incident-to-atm/)

These reports are sent to the ATM chair directly. Complaints will be kept confidential and addressed quickly.

**Boston University Sexual Misconduct/Title IX Policy**

**Needle Sticks and Exposure Procedure**

(See Appendix C)
FOCUS: Feedback and Observation of Clinical (UME) Students

INTERVIEWING TECHNIQUE

Please observe the student performing a patient history and provide them with feedback based on the behaviors listed below

- Prior to observation:
  - Ask student about specific areas they want to work on or areas you should focus your feedback on

- After you observe:
  - Encourage student assessment
  - Describe specific behaviors - use CSEF language below as prompts
  - Give positive and constructive feedback: at least 2 positives and 2 areas for improvement and develop an action plan

### Interviewing Technique

**A 3rd year student who is competent in this domain:**
- Introduces self to patient and attempts to develop rapport
- Takes a chronologic history of present illness without interruption
- Attempts to use the differential diagnosis to gather data
- Follows an organized interview framework
- Uses summarization of history back to patient or checks for accuracy
- Actively listens using verbal and non-verbal techniques (reflective statements, summary statements, open body language, nodding, eye contact, etc.)
- Completes within appropriate time frame

**A 3rd year student who is achieving behavior beyond the 3rd year competency criteria:**
- Demonstrates patient-centered interview skills (e.g. attends to patients’ verbal/nonverbal cues, culture, social determinants, need for interpretive/adaptive services etc.)
- Probes for relevant, subtle details
- Integrates information from the patient and from other relevant resources (e.g. EMR, caregiver, witness, outside records)

### Comments - specific examples of behaviors observed or missing from above:

(Note: It is okay to give your feedback verbally and have the student scribe - the important part is giving specific, timely, behaviorally based feedback)

**Student Reflection - What would you change or do differently?**

**Next steps for student growth:**
These should be developed based on feedback from the observation and the above behaviors - student should develop these with faculty and write them here:

1.
2.
3.

☐ I directly observed this student
☐ I provided verbal feedback to the student

Supervisor Signature ______________________________
MID-CLERKSHIP EVALUATION FORM

Student Name: ____________________________________________
Faculty Reviewer: ____________________________________________

During the Mid-Clerkship Meeting, faculty and student should meet, complete, discuss, and sign the Mid-Clerkship Review form (this paper) by week 2 on a 4 week clerkship, week 3 on a 6 week clerkship and week 4 on an 8 week clerkship.

**Step 1:** Faculty please complete a Mid-Clerkship CSEF, review each domain with the student and provide feedback and/or review completed FOCuS Forms with the student.

**Step 2:** Please review student’s required patient encounter log, duty hour log and their FOCuS forms

**PATIENT LOG (REQUIRED DIAGNOSES and PROCEDURES)**
Required patient encounters remaining:
Plan and timeline for completion or alternative experiences:

**FOCuS FORMS**  Review complete: Yes ☐   No ☐
Direct Observation and Feedback Forms Remaining:
Plan and timeline for completion:

**DUTY HOUR LOG**  Review complete: Yes ☐   No ☐

**Step 3:** Written feedback

List AT LEAST 2 SPECIFIC student strengths and comments on their performance (List behaviors, skills, etc.):

List AT LEAST 2 SPECIFIC items to work on during the second half of the clerkship (discuss action plan with student):

Please provide feedback on professionalism:

Adapted from the Family Medicine's Preceptor Manual, written by Miriam Hoffman, MD and Molly Cohen-Osher, MD
Updated 3/2022, Medical Education Office
**Step 4: Action Plan**

**Students:** Write 3 learning goals for the rest of the rotation based on the feedback you received and discuss them with your faculty reviewer

1. 

2. 

3.

(if not the same as above)
Boston University School of Medicine Needle Sticks and Exposure Procedure

Purpose: To outline appropriate preventative measures and what to do in case of unprotected exposure to body fluids.

Covered Parties: Medical students.

Procedure:
To prevent exposure to potentially infectious materials, students must use standard precautions with all patients and when performing any task or procedure that could result in the contamination of skin or clothing with blood, body fluids, secretions, excretions (except sweat), or other potentially infectious material, regardless of whether the those fluids contain visible blood.

Standard precautions are to be observed to prevent contact with blood or other potentially infectious materials. ALL body fluids are considered potentially infectious materials. All students are responsible for their personal safety and the safety of their teammates. Students should follow safe practices when handling sharps. Students must use appropriate personal protective equipment such as, but not limited to, gloves, gowns, laboratory coats, face shields or masks and eye protection, and mouthpieces, resuscitation bags, pocket masks, or other ventilation devices.

Standard Precautions include:
- Hand hygiene
- Eye and face protection
- Use of gowns and gloves
- Sharps management

Additional “Transmission Based Precautions” must be used in addition to standard precautions for patients with known or suspected infection or colonization with highly transmissible or epidemiologically important pathogens.

In the event of a needle stick or any unprotected exposure to blood, bloody body fluids, or other potentially infectious material, either in a lab or a clinical setting you should:

- Wash the exposed area and perform basic first aid
- Notify your supervisor – resident or faculty – of the occurrence and that you are leaving to seek care immediately.
- Get evaluated immediately: it is extremely important to receive counseling regarding the risk of acquiring a communicable disease. If indicated, prophylaxis should be started right away, usually within one hour.

If you are at Boston Medical Center

BMC’s Occupational Health clinic during working hours or the BMC Emergency Department after hours and on weekends
Location
The Working Well Occupational Health Clinic is located:
Doctor's Office Building (DOB 7) - Suite 703
720 Harrison Ave, Boston MA 02118

Telephone: 617-638-8400
Pager: 3580
Fax: 617-638-8406
E-mail: workingwellclinic@bmc.org
Hours: Monday-Friday, 7:30a.m. - 4:00p.m.

• Tell the receptionist you have had an unprotected exposure (needle stick), and you will be fast-tracked into the clinic.
• A counselor will discuss post-exposure prophylaxis with you
• DO NOT DELAY!

BMC’s Occupational Health will notify the Office of Student Affairs of exposures occurring at BMC within 48 hours. These situations can be very stressful and we are here to help. To speak to a dean immediately about the incident, please page the dean on duty by calling (617) 638-5795 and sending a page to #4196 or sending a text page to pager #4196 through the pager directory.

If you are at a non-Boston Medical Center site

Immediately check with your supervising physician about the site-specific needle-stick protocol

• If the site has its own emergency room or occupational health you will be directed to go there
• If the site does not have its own emergency room or occupational health, you will go to the nearest emergency room
• DO NOT DELAY!

Coverage for provided services is included in the Aetna student health insurance plan offered by the University. In the event that you do not have Boston University School of Medicine health insurance (Aetna), you must contact your carrier and determine the level of services covered. Submit any billing received to your insurance company. The OSA will provide reimbursement for out-of-pocket co-pays. We strongly encourage you to keep your health insurance card in your wallet at all times.

For questions regarding this policy please contact Dr. Angela Jackson, Associate Dean of Student Affairs. Dr. Jackson can be reached in the Office of Student Affairs (617-358-7466).

Revised Jan 2018
