BOSTON  
UNIVERSITY

# WELCOME

Welcome to Boston University School of Medicine's self-guided walking tour. Boston University School of Medicine (BUSM) is a major clinical, educational, and research institution, providing an exceptional environment for diverse student interests, including basic science, clinical investigation or public health and health services research, in addition to rigorous and comprehensive clinical training. BUSM has 660 medical students, and a similar number of graduate students in the medical school actively engaged in the study of medicine and the biomedical sciences. Located in the historic South End of Boston, BUSM shares a campus with Boston Medical Center, the School of Public Health, the Goldman School of Dental Medicine, and the Dr. Solomon Carter Fuller Mental Health Center.

BUSM was formed in 1873 when Boston University merged with the New England Female Medical College, becoming the first coeducational medical school. The New England Female Medical College, founded in 1848, was the first institution to medically train women and graduated the first black woman physician. Throughout our history we have maintained a strong commitment to the study and practice of medicine in the context of a mission of service to society.

Our clinical teaching program provides rich and diverse opportunities, based on-campus at Boston Medical Center, but including 25 affiliated hospitals, 15 neighborhood health centers, and numerous private clinics and doctors' offices in greater Boston. Students also participate in international health programs and a variety of professional and social service activities.

## INSTRUCTIONAL BUILDING

### HIEBERT LOUNGE, 14<sup>TH</sup> FLOOR

*Walking Directions: Take the elevator just off the main lobby of the Instructional Building to the 14th floor. Turn right out of the elevator and follow the signs for Hiebert Lounge.*

Hiebert Lounge is the site of many of the medical campus's large functions and serves as the primary location for student research presentations, as well as departmental and clerkship exams. From the windows, you are able to view several points of interest across the Boston skyline, including the Prudential Center and the Hancock Tower.

Hiebert Lounge is named after Dr. T. Mark Hiebert '32, a pharmaceutical executive who chaired the campaign to raise the funds to build the Instructional Building.

### ALUMNI MEDICAL LIBRARY, 12<sup>TH</sup> FLOOR

*Walking Directions: From Hiebert Lounge, return to the elevator and proceed to the 12th floor. The Alumni Medical Library will be on your right as you exit the elevator.*

The Alumni Medical Library houses more than 8 million citations and abstracts and includes the Learning Resource Center featuring high-speed computers and printers. This technology allows students to access a large database of questions used by students for self-testing, as well as computer-based patient management problems, heartbeats simulations and interactive video-based patient simulations. There is also a Student Coffee Lounge for students to use for group study.

## STUDENT LOUNGE, BASEMENT LEVEL

*Walking Directions: From the Alumni Medical Library, return to the elevator and go to the basement level. Exit the elevator to your right and proceed through the double doors. Turn right after the double doors and follow the corridor to the student lounge area.*

The Student Lounge Area is the place where many medical students gather throughout the day. This area features Chequers, a full service dine-in facility, as well as a student e-mail and lounge area. There is also an ATM, stamp machine and lockers for student use.

### W.F. McNARY, JR. STUDENT RESOURCE LEARNING CENTER, 1<sup>ST</sup> FLOOR

*Walking Directions: From the student lounge area, return to the elevator and go to the first floor. The McNary Learning Center will be on your left as you exit the elevators. As you exit the elevator, the first floor lobby will be on your right.*

This section of the School of Medicine houses many state-of-the-art classrooms, as well as an additional computer lab for student use. Named in memory of a much-loved former dean of student affairs, the McNary Learning Center also has numerous seminar rooms that accommodate small group study. In all, the Center includes a 36-station computer lab, two large seminar rooms, three medium-size seminar rooms, a conference room, and seven small seminar rooms.

### LOBBY, 1<sup>ST</sup> FLOOR

The lobby is the entrance to the School of Medicine and is surrounded by life-size sculptures of the History of Medicine by late-artist Doris Appel. These sculptures

feature prominent figures in medicine, such as Hippocrates, Imhotep, Maimonides, Marie Curie, and Vesalius.

The lobby also houses the School of Medicine's mailroom, which provides nearly all of the resources of a United States post office. In the hallway across from the mailroom is a portrait of each former dean of the School of Medicine. The Dean's Office, the Office of Admissions, and the Office of Student Affairs are located off the lobby, as well.

You will also notice signs for the Alumni Association near the main bank of elevators. The Alumni Association takes great pride in engaging current students in activities throughout their time on campus. Students are very active in these activities and the Association provides great support to current students.

The Instructional Building contains many state-of-the-art research laboratories, including the Department of Anatomy and Neurobiology, the Department of Microbiology, the Department of Pathology and the Department of Pharmacology and Experimental Therapeutics. In addition, the Clinical Skills and Simulation Center where students, interns and residents, and faculty all learn and practice new procedures, is housed here.

### HENRY JACOB BAKST AUDITORIUM, 1<sup>ST</sup> FLOOR, A BUILDING

*Walking Directions: As you stand in front of the security desk in the lobby of the Instructional Building, walk to your left and follow the signs for Bakst Auditorium.*

Bakst Auditorium is where first-year lectures are given and features state-of-the-art video and audio systems, as well as wheel chair accessibility. The Bakst Auditorium is named in memory of Henry Bakst, who was a pioneer in modern preventive and community medicine. Bakst was an important member of the faculty at BUSM from the time he was hired in 1932. He also served as associate dean beginning in 1965, and dean from 1969-1970.

### TALBOT GREEN

*Walking Directions: From Bakst Auditorium, return to the main lobby of the Instructional Building and exit the facility through the doors in front of the security desk. Talbot Green will be directly in front of you. The Medical Fountain will be to your left and the bust of Hippocrates will be on your right. The Talbot Building is the large brick building directly in front of you.*

Talbot Green, named in honor of Dr. Israel Tisdale Talbot, the first dean of BUSM, is the historic center of the Medical Campus, featuring several medical sculptures, including the Medical Fountain and the bust of Hippocrates. The lawn area is where students often gather for special events and relaxation after classes.

There is also a bike rack located on Talbot Green for those who bike to the Medical Campus. The Talbot Building houses the School of Public Health.

### SAFETY BOXES

As you travel around the Medical Campus, you will notice blue safety boxes located in many areas. These boxes allow users to contact the Campus Public Safety Department directly with any type of emergency.

## BOSTON MEDICAL CENTER

*Walking Directions: As you face the front of the Instructional Building, Boston Medical Center will be on your left. Cross East Concord Street and you will first pass the Moakley Building, followed by the Menino Pavilion and then the Yawkey Ambulatory Care Center.*

Boston Medical Center was formed in 1997 with the merger of Boston City Hospital and University Hospital. Today, Boston Medical Center has grown into a 581-bed primary, secondary and tertiary care facility., Serving as the primary teaching affiliate of the School of Medicine, Boston Medical Center emphasizes comprehensive, state-of-the art, community-focused care, and is the largest safety net hospital in New England.

In the first and second year, students spend one-half to one day a week in a clinical setting, learning interviewing skills, physical diagnosis and how to interact with patients. Major service areas of Boston Medical Center include the Yawkey Amulatory Care Center, Menino Pavilion, the Moakley Building and the Newton Pavilion.

### ALBANY STREET

*Walking Directions: From Menino Pavilion walk back towards East Concord Street and turn right. Walk to the first light, cross the street, and turn left onto Albany Street.*

*Along Albany Street, you will find the Medical Campus Bookstore where students can purchase textbooks and supplies. There is also a Campus Convenience store, as well as a bank, ATM and FedEx/Kinko's store.*

# BOSTON MASSACHUSETTS .....

Students who wish to take The BU Shuttle (BUS) to the Charles River Campus, can do so in front of the parking garage at 710 Albany Street.

Albany Street is also where BioSquare is located, and is home to the Evans Biomedical Research Center, the Center for Advanced Biomedical Research and 670 Albany Street. These buildings combine state-of-the-art, built to suit research facilities with comprehensive tenant amenities and services, all in one convenient campus setting.

As part of BioSquare, Boston University School of Medicine is constructing a National Emerging Infections Diseases Laboratories, for which Boston University received an award of \$128 million to build the only BSL-4 facility in New England. Scheduled for completion in late Fall 2008, this laboratory will build upon our reputation as one of the top research institutions in the nation by allowing us to research ways to diagnose and treat deadly infectious diseases.

When completed, BioSquare will consist of 2.5 million square feet of state-of-the-art research and office space on 16 acres representing a national model for academic and industry collaboration.

### EAST NEWTON STREET

*Walking Directions: As you walk along Albany Street, turn left onto East Newton Street. The Solomon Carter Fuller Mental Health Building will be on your left and the Goldman School of Dental Medicine will be on your right. The Newton Pavilion, part of Boston Medical Center, will also be on your right.*

As you walk along East Newton Street, you will come across the Goldman School of Dental Medicine, as well as Newton Pavilion, part of Boston Medical Center.

Across from Newton Pavilion is the Solomon Carter Fuller Mental Health Building, which houses one of the state's mental health facilities, as well as classroom and laboratory space for the Medical Campus. This ten-story facility was named in honor of Solomon Carter Fuller, a 1897 BUSM graduate and thirty-year faculty member who was an eminent neurophysiologist and the first African American psychiatrist in the nation.

### HARRISON AVENUE

*Walking Directions: If you continue walking down East Newton Street, you will come to Harrison Avenue. Turn left onto Harrison Avenue and Harrison Court will be across the street.*

Harrison Avenue is a major thoroughfare of the South End neighborhood of Boston and is home to many unique stores and local restaurants. This is also where Harrison Court is located, which is where many students rent apartments.

While this concludes the walking portion of your tour, please feel free to return to the Office of Admissions, located on the first floor of the Instructional Building, with any questions or comments about your time at Boston University School of Medicine.
