

June 2023

Dear Member of the Class of 2027,

CONGRATULATIONS on your acceptance to BU School of Medicine!

Over the next four years, you will be introduced to the art and science of medicine. The acquisition of clinical skills involves learning to use the tools and instruments involved in physical diagnosis. We are pleased to inform you that as an incoming student to Boston University School of Medicine you will be given this equipment for use in the Doctoring courses and clerkships at no extra cost. This includes a stethoscope, blood pressure cuff, and diagnostic kit that you will receive this fall. An outline of this high-quality medical equipment is available on the incoming students' site. The distributor is offering upgrades that you will learn about at an all-class meeting on August 2nd. You will also have the option to choose what color tubing you would like for your stethoscope (free) and whether you would like to have it engraved. We are delighted to be able to give you this high-quality package of medical equipment that will help you develop your craft as a physician.

We look forward to meeting you in August!

Sincerely,

Elizabeth Ferrenz, M.D.
Course Director
Doctoring Modules 1 & 2

Christine Phillips, M.D.
Course Director
Doctoring Modules 3 & 5
Clinical Skills and Simulation Center

Boston University School of Medicine
