

## Interested in Hormones, Diabetes, or Metabolism? Join the Endocrinology Learning Experience!

We're excited to announce that BU Chobanian & Avedisian School of Medicine has been selected to participate in the **Endocrine Society's Medical School Engagement Program** — a national initiative designed to introduce medical students to the dynamic and evolving field of endocrinology.

### What You'll Gain:

🧠 Monthly Endocrine Interest Group sessions: case-based learning, interactive discussions, and career mentorship

💛 Mentorship from diverse endocrinology faculty

🏥 Hands-on experience with thyroid ultrasound, insulin pumps, and continuous glucose monitors (CGMs)

🌍 Community outreach with the endocrine team

📄 Opportunity to submit a scholarly activity with faculty to an Endocrine Society meeting

🎓 Complimentary Endocrine Society Membership for all participants

### Excellence in Endocrinology Award:

🏆 **Two students will be selected for the "Excellence in Endocrinology" Award**, which includes:

✈️ Complimentary registration and travel to ENDO 2025

💛 Participation in Endocrine Mentor Day during ENDO 2025 meeting

🔑 Whether you're endocrinology-bound or just curious, this is your opportunity to explore, connect, and grow.
