

RESEARCH IN ADDICTION MEDICINE SCHOLARS (RAMS) PROGRAM

2012-2014 SCHOLARS

SARAH BAGLEY, MD
ADDICTION MEDICINE
BOSTON UNIVERSITY
BOSTON MEDICAL CENTER

Dr. Bagley completed Combined Internal Medicine-Pediatrics training at Brown University/Rhode Island Hospital and is in her second year of Addiction Medicine Fellowship in the Section of General Internal Medicine, Boston University Medical Center. Her research interests are the impact of substance use on mothers and their children and the impact of substance use on the family unit. Her RAMS research project is about the uptake of naloxone kits among family members of opioid users.

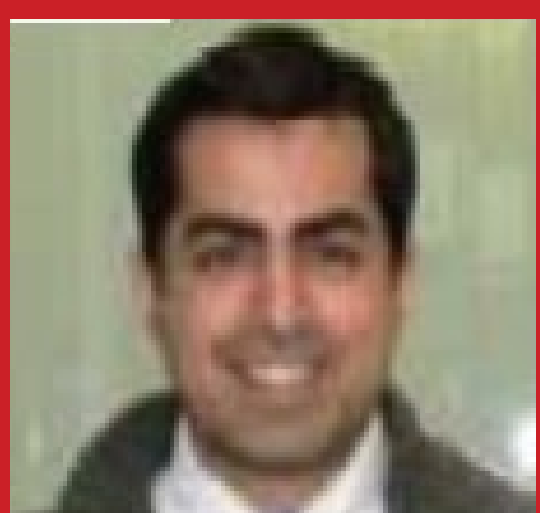

Mentor: Alex Walley, MD, MSc **NAC Mentor:** Patrick O'Connor, MD, MPH

TAE WOO 'TED' PARK, MD
ADDICTION PSYCHIATRY
BOSTON UNIVERSITY
VA BOSTON HEALTHCARE SYSTEM

Dr. Park is an addiction psychiatrist and a research fellow in the VA Advanced Fellowships Program at the Boston VA. He completed medical school at Case Western Reserve University in Cleveland, OH and trained in general psychiatry and addiction psychiatry at Western Psychiatric Institute and Clinic in Pittsburgh, PA. His current research interests include physician prescribing practices of medications that treat addiction, medications that might lead to addiction, and the treatment of addiction in general medical settings.

Mentor: Richard Saitz, MD, MPH **NAC Mentor:** Edward Nunes, MD

BABAK TOFIGHI, MD
ADDICTION MEDICINE
NEW YORK UNIVERSITY
BELLEVUE HOSPITAL CENTER

Dr. Tofighi completed his Internal Medicine residency at Lenox Hill Hospital in 2012. He was then accepted as a joint Addiction Medicine fellow and T32 Primary-care research fellow at New York University School of Medicine under the mentorship of Dr. Joshua D. Lee. His research interests are the use of patient-centered technologies to improve public sector, office-based addiction treatment services, and evaluating outcomes among office-based buprenorphine patients following Hurricane Sandy.

Mentor: Joshua Lee, MD, MSc **NAC Mentor:** Jeffrey Samet, MD, MA, MPH

CHRISTINE WILDER, MD
ADDICTION PSYCHIATRY
UNIVERSITY OF CINCINNATI
CINCINNATI DEPARTMENT OF
VA MEDICAL CENTER

Dr. Wilder is currently a research fellow in the Addiction Sciences Division, Department of Psychiatry and Behavioral Neurosciences, at the University of Cincinnati School of Medicine. She is interested in improving health services and treatment for individuals with opioid use disorders and is currently participating in studies on prevention of opioid overdose and improvement of treatment retention in pregnant and postpartum women on methadone. Her RAMS research project focuses on risk perception and acceptability of naloxone to veterans on chronic high-dose opioids for pain versus addiction treatment.

Mentor: Shannon Miller, MD **NAC Mentor:** Michael Stein, MD
