

# **Mentoring Chief Residents in Project Development**

Angela Jackson, MD  
Associate Dean,  
Office of Student Affairs  
Boston University School of Medicine

# **Qualities of a good mentor:**

- Listening Skills
- Help with new skill development
- Help with realistic goal setting
- Introductions: Other resources, other mentors, etc
- Monitor progress towards goals

# **Role of Mentee**

- Showing up for appointments
- Preparing in advance, completing tasks
- Identifying needs

## **RULE #1:**

**Set clear and explicit expectations  
up front for both mentor and  
mentee**

# **Concept of “Micro-Mentor”**

# **Guide for project development**

- 1- Goal Setting:** Where do I want to go and what do I need?
- 2- Planning:** How do I get there?
- 3- Benchmarking:** How will I know when I have arrived?
- 4- Reflection and Context:** Where does this fit in the “big picture”?
  - Reflection - We learn by doing and realizing what we did
  - Structured autonomy: Self assessment followed by feedback for the “reality check”, to compare and validate

**Project completion**

- Action Items
- Barriers
- Milestones
- Resources
- Allies
