Abstract

Needs
Assessment

Curriculum

Evaluation

Project Milestones

1.) Read through the prompts under Needs Assessment, Curriculum and Evaluation. If you have time, also read through the Project Milestones (5 min)

2.) Respond to the prompts with as much detail as you would like. If you're unsure how to respond to a prompt, it's a sign that you should focus on it a bit more. You can also begin mapping out your presentation during this time. (25 min)

3.) Break into 4 groups of 3. Spend about 10 min each sharing your responses and any potential pain points or challenges you uncovered through this process (30 min)
