

MedHub Mobile App – Android Download and Login (SSO)

The following are instructions for downloading the MedHub mobile app for Android and how to log into the mobile app using your institution's Single-Sign-On (SSO) method.

Navigate to and tap the **Google Play Store** icon on your home screen to open the Google app store.

Tap the Search bar at the top of the screen and search for **MedHub**.

Click on the MedHub mobile application entry and tap **Install** to download the MedHub Android app.

Once the app is downloaded, either click **Open** from within the Google Play Store or navigate to the MedHub mobile app on your home screen (if adding the app to the home screen) and tap it to open.

When first logging into the MedHub mobile app, you will be asked to allow push notifications. Tap **Allow** to allow or **Don't Allow** to turn off push notifications. Notification parameters can be changed in your mobile settings.

Once a period of seven days (by default) has elapsed, you will be required to re-enter your login credentials. This time period may be different depending on institutional settings.

You are now logged into the MedHub mobile app. Navigate through the Calendar, Work Hours, Evaluations, or Procedures features along the bottom of the screen, or click on the **More...** option to view additional features.

See the MedHub user manual for additional information on using the mobile app and related features.
