Opportunities: <mark>prioritize 3-5 areas of opportunities</mark> specific to researchers that could be gradually discussed and brought up to leadership for constructive developments
 -Research building community (motivation): Early Faculty (KR suggests that Allan will contact Emelia to identify a list of faculty. Allan agreed);
-Voice within the department: First define as a group what is missing (opportunities; challenges) for us more senior leadership) to advocate for it.
Marc L: periodical/monthly/quarterly research focused invited high-impact seminars
Allan W: know each other from within (invited speakers from different sections- work with section research leaders); facilitate links to resources
Karen J: improve post-award; research involving outside BMC population
Sus: Involve trainees; provide lunches to attract
Karsten L: Mechanisms of safety net for successful researchers who are unable to sustain funding at least transiently (Karen: Bank of sort; 90%

salary support might not be realistically continuously; what other Med schools do)

Lee W: Facilitate the process of Cost sharing among schools, institutes etc; negotiate more rebate from indirect

Weining L: Engage and tap on CRC resources? Two classes of faculty on BMC and BUSM

George M: Highlight within the Researcher Forum key talks within Landscape of all seminars on campus; BMC post award does not have the infrastructure as BU

Exchange knowledge: Determine order and length of research presentations by members of our research community (e.g., 20 min of each first Researchers Forum meeting)

Support: Determine the type of travel or such awards offered via the Forum to researchers and criteria

Logistics: Determine mode of next meetings (Zoom or in-person or alternate)
