Overview:
The Women’s Leadership Program (WLP) is a longitudinal program for women faculty on the Boston University Medical Campus (BUMC) who are interested in pursuing leadership in academic medicine. The program uses self-assessment and reflection, seminars, and experiential learning to provide faculty with the tools necessary to navigate a successful career in academic medicine. Thorough peer and senior mentorship, this program will help participants foster leadership skills that will enable them to positively affect change from where they stand.

Learning Objectives:
- Develop skills to learn how to identify one’s own strengths and weaknesses
- Develop skills to effectively lead as a woman in the workplace
- Learn how to effectively mentor and coach others, especially women

Participants:
Women faculty members in leadership roles in research, education, and clinical excellence.

Time Commitment:
Sessions are 2 hours long and take place from September to June approximately every three weeks. Most sessions include a 60-minute experiential seminar, 25 minutes of book report presentations, and 35-minute small group consultation/peer coaching on individual leadership goals.

Competencies: Career Development, Communication, Leadership & Work/Life Integration

Program Components:
- Experiential seminars. Senior faculty members and leaders from BUMC and beyond engage with participants around key determinants for effective leadership, with a special focus on topics identified as areas of particular interest to women faculty.
- Book report. Each participant selects a different leadership book to read, develops 1-page executive summary, and presents to peers. The presentation includes 3 minutes on the book’s key points, 3 minutes on what the participant will practice or implement having read the book, and 2 minutes of Q&A.
- Peer Mentoring/Coaching. Participants develop peer mentoring and coaching skills to provide support and accountability to one another to successfully negotiate challenges, foster resiliency, and achieve personal goals.
- Conversation café. Opportunity to engage with inspirational women leaders from BU/BMC and beyond in an informal setting to learn about their career and leadership experiences, challenges, and insights.
- Leadership goal. Participants commit to making substantial progress on a personal leadership goal throughout the program.
- Participant commitment. Participants commit to actively participate in at least 12 of the 14 sessions that take place from September to June, to make progress on their leadership goal, and engage in self-reflection and honest conversation with peer mentors.
- Optional Career Consultation with Emelia. Participants have the option to meet 1 on 1 with Emelia Benjamin at the beginning of the program to discuss: CV, leadership goal(s) and review the questions: Where do you want to be in the next 5 years? Who do you want to network with?

Pre-Session 1 Preparatory Assignments:
- Select a leadership book to read and present on during the program
- Complete preparatory work for first session
- Update your BU Profiles page
- Optional: Meet with Emelia Benjamin for career coaching session
