

# BMC Belkin Breast Imaging

## Screening Mammogram

Boston Medical Center Belkin Breast Imaging is now re-open for routine screening mammograms Monday through Friday 7am-7pm, Saturday 3:30pm-5:30pm. Safety precautions and social distancing is in place to ensure your safety during your visit. Please call us to schedule at 617-414-9729 #1.

\*If you have a clinical need, please contact your primary healthcare provider to evaluate. Diagnostic Imaging is available upon referral.

### What Does BMC Breast Imaging Do to Protect You from COVID19?

Telephone triage all patients at the booking/confirmation call

Screening all patients and visitors for fever, respiratory symptoms, or other symptoms before entering healthcare facility

★ Screening performed at Moakley entrance 7am-5pm, in Menino lobby after 5pm

All patients and visitors are issued a hospital grade mask that is required to be worn while on premises of BMC

Equipment is thoroughly cleaned/disinfected after each patient

To minimize interactions with other patients we redesigned workflows to allow for less in-clinic movement

To ensure social distancing we are limiting sitting space in waiting rooms

★ Family and Companions are not allowed to max patient seating

Mammography pads are available upon request

All staff are required to wear personal protective equipment

All staff regular monitor their temperature and symptoms
