**Interesting internship opportunity: Insight Data Science Fellows Program**

Are you a PhD candidate or post-doctoral researcher in the quantitative sciences looking to transition to a career in the tech industry? Do you want a career that truly leverages your quantitative experience in a fast-growing, in-demand field that's making a positive impact in the world?

Insight Data Science Fellows Program
http://insightdatascience.com/fellowship.html

Silicon Valley technology companies like Facebook, LinkedIn, Twitter, Khan Academy, Square and many others are hiring data scientists to help them glean insights from the terabytes of data that they collect everyday. While the amount of data produced and stored is growing exponentially, there is a severe shortage of top talent to analyze this data and extract valuable insights from it.

The Insight Data Science Fellows Program is a new post-doctoral training fellowship designed to bridge the gap between academia and a career data science.

- 6 week, full-time, data science training fellowship in Palo Alto, CA starting this Summer.
- Full tuition scholarship and a $5,000 living expense stipend.
- Self-directed, project-based learning (no classes!) under the guidance of top industry data scientists.
- A group of smart people who are excited about working on interesting problems while having a positive impact.
- Interview at top technology companies during the final week of the program.
