

Growing Older, Growing Stronger

A photography exhibit about aging with an
intellectual disability

Photo Voice is a participatory research method where participants are given cameras and asked to document their worlds. This exhibit explores aging, community inclusion and other themes, as shown by aging women with intellectual disabilities, who were artists and co-researchers. Artists will be on hand to discuss their work, and light refreshments will be served.

Artists' Reception:
Wednesday, February 6, 2013, 4-6 pm
GMS Office-72 East Concord St L-317
