

**Registration for Advanced Responsible Conduct of Research
(RCR) Workshops for Spring 2023**

Doctoral Degree Candidates and Postdoctoral Scholars (Postdocs)

Academic Year 2022-2023

ADVANCED RCR TRAINING: Doctoral candidates and postdocs who have an RCR compliance requirement due to funding within NIH or NSF research grants must complete the online introductory RCR training CITI modules before participating in the four advanced RCR live workshops. Grant-funded individuals are required to complete the online introductory training and four advanced live workshops within two years of being notified of their RCR training requirements.

All other doctoral students and postdocs who will be taking advanced RCR training, including those who are meeting a departmental mandate, must also complete the introductory online training before registering for the four workshops. Postdocs are recommended to complete the introductory training as early as possible and begin the four RCR workshops in the semester in which online preparation is completed. We recommend completion of the four workshops at the rate of at least one per semester.

COMPLETING ONLINE TRAINING:

1. Sign up for a [CITI Account](#)
2. Affiliate with Boston University (please note that if you affiliate with Boston University Medical Campus through CITI, you will not be able to access the RCR course).
3. Click “Add a Course or Update Learner Groups”
4. Select “Responsible Conduct of Research (RCR Courses)”
5. Select “Intro to RCR”

**REGISTER FOR SPRING 2023 ADVANCED RCR WORKSHOPS ON
OUR [WEBSITE](#)**
