

Program Assistant - Summer 2025

Job Description

Boston University Summer Term offers programs for high school students to preview college life. We are hiring program assistants (PAs) for the High School Honors, Research in Science & Engineering (RISE), Academic Immersion (AIM), Summer Challenge, and Summer Preview programs. PAs typically live on the same floors as their students in the residence hall and are responsible for mentoring and guiding students, leading activities, and ensuring students' safety and compliance with the program rules and guidelines. This is an excellent opportunity to develop leadership skills, mentor high school students, plan and implement social programming, and build effective working relationships as you enjoy a fun and rewarding summer. Compensation for PAs includes a weekly payment (\$425), private room, dining plan, and MicroFridge for the duration of the employment period.

PAs may have an additional part-time work commitment if their hours are approved by the Summer Term office. The PA role must be your first priority for the duration of your employment. In addition, PAs will be held to the highest standards of professionalism.

Eligibility for the PA position requires that an individual be a current BU student (undergraduate and graduate students are eligible). Students graduating in Spring 2025 will be considered with permission from the Summer Term office. Applicants must be in good academic standing.

Employment Dates

Summer Challenge/Summer Preview

PAs move-in: June 8
