

US Medical Affairs Ph.D. Fellowship

Vaccines

Program Overview

The Vaccines Medical Affairs Ph.D. Fellow will integrate into the US Medical Team during this 1-2 year fellowship experience. The program aims to develop the knowledge, skills, and behaviors required for success and career readiness in medical affairs. Fellows will gain expertise in vaccine medical evidence and therapeutics, refine their scientific communication skills, and collaborate across key functions within Medical Affairs and the Vaccines Business Unit.

Primary Objectives

- **Vaccines Medical Affairs Training:** Participate in the Vaccines Medical Affairs Training and Certification program
- **Field Experience:** Work alongside Medical Science Liaison (MSL) Mentors to develop skills in:
 - Communicating scientific data effectively
 - Applying medical strategy
 - Building scientific partnerships with practitioners in vaccine-related fields
- **Medical Strategy Development:** Contribute to shaping medical strategies and developing core medical materials and field tactics by engaging with various teams
- **Project Management:** Take ownership of strategic projects and well-defined team initiatives
- **Professional Development:** Engage in opportunities to enhance core medical competencies

Applicant Requirements

- Completion of a Ph.D. in Biomedical Sciences by May 1, 2025
- No prior pharmaceutical industry experience required
- Fellowship duration: 07/01/2025 - 06/30/2026, with optional second year
- Applicants must be authorized to work in the U.S. We are unable to sponsor or assume sponsorship of an employment Visa.
