

Dear ,

I am a student in the Master of Science in Clinical Research program. One of the program requirements is to do a clinical research practicum, with the goal of gaining hands-on experience working on clinical research projects:

<https://www.bumc.bu.edu/gms/mscr/curriculum/mscr/practicum/>

The practicum is very flexible in the type of activities and the number of projects. I am very interested in working with your group (*add something about why you are interested in working with this group*)

I hope that we can find a time to meet.

Thank you,
