Enhance People's Current Skills

Snack Buddy (2013-Present)

- What do they currently know?
- What misconceptions do they have?
- What do they *really* need to know now?

Empower People

- Assist them to trouble shoot
- Let them understand their misconceptions
- Help them make connections with other health resources

DIMA (2004-2013)

Be Realistic

- What do people need?
- What is the usage expectation?
 - Person vs. Clinician
vs. Society
- People have *lives* and studies are messy
