

Configuring Exchange on ActiveSync

The following settings are applicable to any device using Mobile Synchronization to Exchange, although the order in which you are prompted to provide these settings will vary across devices and versions.

- **Username** is your **BU login name** (i.e. the *login* portion of *login@bu.edu*)
- **Password** is your **Kerberos password** if you are on the AD and your **AD2 password** if you are on AD2.
- **Domain** is either **AD or AD2** depending on which you use.
- **Server** is **xmail.bu.edu**
- **Use ssl** should be **on or selected**
