How to add and remove students:

Enroll students:

1. On the left navigation panel, expand Users and Groups under Course Management.
2. Next, click on Users and this will bring you to the Users page, where you can access all users in your course.

3. Select Find Users to Enroll at the top of the page to open the Enroll People panel.
4. In the search box, type a name, username, or at least two letters to reveal a list of matches. People already enrolled in your course don’t appear in the search results.
5. Select one or more people. They immediately appear in the roster list. To reverse a selection, select a person’s name again.
6. Choose a role for that person.

7. Select Save. The panel closes. At the top of the Users page, a message indicates if you added user(s) successfully.
Remove students:
1. On the left navigation panel, expand **Users and Groups** under **Course Management**.
2. Next, click on **Users** and this will bring you to the Users page, where you can access all users in your course.

**Method 1 (best when just removing one or few student(s)):**
3. Click the downward arrow next to someone’s name to access that person’s menu. (Change User’s Role in Course, Change User’s Availability in Course, Remove Users from Course)
4. Select **Remove Users from Course**, will receive a confirmation alert to verify your decision.
Method 2 (best when removing lots of students):
3. Click on the square to the left of a user’s name.
4. After selecting all the users you want to remove from the course, click on **Remove Users from Course** (two locations: top and bottom).
5. This action also deletes all data and grades associated with the person. You’ll receive a pop-up confirmation window. To keep the data, you can cancel and deny the person’s access to your course instead.
