

## Full-Time Microbiology Educator Faculty Position

The Department of Microbiology, Boston University School of Medicine, is seeking an accomplished and enthusiastic full-time educator for a position at the Assistant Professor level, available immediately. Outstanding candidates may be considered for an Associate Professor position. Minimum qualifications include PhD or equivalent degree in microbiology or a closely related field. The successful candidate will employ innovative teaching modalities for a diverse student population for excellence in teaching and development of educational scholarship. The Department of Microbiology is a vibrant and highly interactive faculty who value excellence and collaboration in their scholarship. Responsibilities of the Educator Faculty Position will include leadership and collaboration with other educators, teaching, curriculum development and instructional design, and student advising in the integrated medical curriculum, as well directing and teaching in the Dental Microbiology and Immunology course. Interested applicants should submit a curriculum vitae, a teaching statement, as well as 3 letters of references.

*Boston University School of Medicine is an equal opportunity/affirmative action employer, committed to building and maintaining robust diversity within all components of its community, and strongly welcomes applications from women, persons with disabilities, protected veterans, and under-represented minorities.*
