

NKF in collaboration with  presents

Increasing your understanding of APOL1-mediated FSGS

Join NKF New England as Dr. Ilori discusses the intersection of genetics and the environment. This program will provide patients an overview of APOL1-mediated FSGS, current treatments, and advances in research.

Date: Thursday, June 10, 2021

Time: 3:00 PM - 4:00 PM

Speaker: Titilayo Ilori, MD

***Not available at the time listed but want to attend? Register now and the recording will be available to you for viewing at your convenience.**
