

OPEN POSITION

**The Department of OB-GYN at Boston University Medical Center
is recruiting for a full-time reproductive health and abortion care Nurse Practitioner
to care for patients in our ambulatory care clinic**

We seek candidates whose experience, teaching, research, or community service has prepared them to contribute to our commitment to diversity and excellence. The ideal candidates have a passion for care of underserved women. This position is focused on reproductive and gynecological care in our ambulatory care clinic, with an emphasis on abortion care, contraception, and miscarriage management. The ideal candidate possesses a commitment to reproductive health care and preserving abortion access, as well as experience in clinical abortion care.

Emphasizing community-based care, Boston Medical Center (BMC) is the largest safety-net hospital in New England and is committed to providing consistently excellent and accessible health services to all. The hospital is also the primary teaching affiliate of the nationally ranked Boston University School of Medicine. Boston University is a world class research institution with more that \$250 million in research grants each year.

BMC is more than a hospital. It is a network of support and care that touches the lives of hundreds of thousands of people in need each year. The institution has a strong focus on public health, both domestic and global, and a commitment to women's health demonstrated by the recent construction of a beautiful state-of-the-art labor and delivery, postpartum, and NICU facility. There are over 2,900 deliveries per year at Boston Medical Center. Our OB-GYN ambulatory care clinic is a busy academic practice, with approximately 55,000 visits per year. We are a full service tertiary care service consisting of 41 physicians, 20 Certified Nurse Midwives, 6 Nurse Practitioners, 2 Physician Assistants, and 3 Genetic Counselors.

Our clinical services and research programs are focused on eliminating disparities in health care. Although this position has primarily clinical responsibilities; all faculty members are expected to participate in scholarly activities, medical student, resident, and fellow education, and research. We have a fully accredited OB/GYN residency program with five residents per year as well as a Complex Family Planning Fellowship.

Minimum qualifications:

- Applicants must possess an Advanced Practice Nursing Degree from an accredited College or University
- Applicants must have or be eligible to obtain a Massachusetts Advanced Practice Nursing License
- Gynecology practice and family planning clinical experience required; experience in abortion care required
- Experience in first trimester dating ultrasound strongly preferred; training is available
- Able to diagnose appropriately during telehealth visits and offer in-person visits when needed
- Fluency with EHR and tele-health (EPIC preferred)
- Commitment to support RNs working 'at the top of their license'
- Fluency in languages other than English is highly desirable, but not required

Applicants must have the ability to work collegially within a diverse environment and demonstrate a commitment to our institutional values regarding diversity, equity, and inclusion. Salary and level of academic appointment will be based upon experience and qualifications. Academic appointment will be at Boston University School of Medicine; rank is commensurate with experience and CV. We offer a competitive salary and an attractive benefit package.

Send CV and Cover Letter to: Carol Boudrot, Executive Assistant, Department of Obstetrics & Gynecology, Boston Medical Center, carol.boudrot@bmc.org
